---	---

1. Introduction

1.1 Overview of the Site

The Quarantine Station (Q Station) (Figure 1) is located on North Head Manly and within the Sydney Harbour National Park, some 10km to the northeast of the Sydney CBD. It covers 31 hectares, including heritage buildings. This site has cultural and historical significance as it operated as a Quarantine Station from 1828 to 1984. In fact, it was the first Quarantine Station established in Australia.

The Q Station site is owned by the NSW Department of Planning and Environment (DPE) and managed by the NPWS. DPE is the parent organisation of NPWS and regulates matters relating to heritage, pollution, native vegetation, biodiversity and National Parks.

Planning approval (MP08_0041) was granted in 2003 for the 'North Head Quarantine Station Conservation and Adaptive re-use Proposal' with NPWS and Mawland Quarantine Station Pty Limited [Mawland] as co-proponents. In 2006 the site was leased to Mawland for the upgrade of the buildings and facilities on the site and the operation of a tourist facility "Q Station" providing accommodation, conferences, weddings, events and education tours.

On 11th May 2022 the lease was transferred to North Head Sydney Pty Limited [NHS] which now conducts the day-to-day activities of the site in accordance with the conditions of planning approval.

1.2 Purpose of the Report

This report is to meet the Minister's Conditions of Planning Approval 221 to 224 inclusive (CoPA) for the site under approval MP08_0041 and subsequent modification (MP08_0041 MOD 3).

The reporting period is January 2022 to December 2022. Pursuant to the conditions of approval, the site is in Operational mode.

This report has been prepared in accordance with the *Compliance Reporting Post Approval Requirements* (DPIE, 2020).

1.3 Summary of Activities

The site was open during the reporting period, January 2022 to December 2022, and the activities undertaken were:

- Visitor access and visitor management
- Visitor Centre and Museum
- Guided tours
- Accommodation, functions and events
- Restaurant

1.4 Responsible personnel

The personnel responsible for the environmental management of the Q Station during 2022 were:

NSW National Parks and Wildlife Service

- Chad Weston, Sydney North Area Manager
chad.weston@environment.nsw.gov.au
- Andrew Thornton, Principal Project Officer
andrew.thornton@environment.nsw.gov.au
- Rose Porter, Environmental Liaison Officer
rose.m.porter@environment.nsw.gov.au

Quarantine Station

Until 11th May 2022

- Maxwell Player, Director of Mawland Quarantine Station Pty Limited
- Suzanne Stanton, Director of Mawland Quarantine Station Pty Limited,
sstanton@mawlandgroup.com.au
- Steven Carrodus, General Manager Q Station
steve.carrodus@qstation.com.au

From 11th May 2022

- Glenn Piper, Sole Director / Secretary of North Head Sydney Pty Ltd
glenn@meridianaaustralia.com.au
- Steven Carrodus General Manager Q Station
steve.carrodus@qstation.com.au
- Ben Dalgliesh, Project Manager for North Head Sydney Pty Ltd
ben.dalgliesh@gmail.com
- Alan Brawn, Compliance Officer for North Head Sydney Pty Ltd
alanrbrawn@gmail.com

1.5 Consultation

In accordance with Condition 221 of the CoPA, a copy of the report was made available to the following stakeholders on 16 January 2023 for review and comment:

- Heritage NSW acting on behalf of the Heritage Council of NSW (Heritage Council)
- Transport for NSW (formerly Waterways Authority)
- Department of Planning
- DPI Fisheries
- Quarantine Station Community Committee

The recipients were requested to provide their comments, if any, by 17 February 2023.

Comments (Appendix H) were received from:

- Heritage NSW acting on behalf of the Heritage Council of NSW (Heritage Council)
- Transport for NSW (formerly Waterways Authority)

Table 1 details comments received that deal with any visitor impact arising from the activities on site

Table 1 Stakeholder Consultation Comments Received

Stakeholder Group	Reference (page number or condition)	Comment	Co-proponent Response Action completed
Transport for NSW	Condition 42 (page 50-51)	Where references are made to the “Waterways Authority” should be updated to “Transport for NSW”	A note has been added where reference is made to the “Waterways Authority” that the authority is now “Transport to NSW”
Heritage NSW	Condition 212 (page 3)	Table 1 details comments received that deal with any visitor impact arising from the activities on site. This table is empty	This comment received relates to this table (Table 1) which details comments received as part of the consultation process. This table is now complete.

No comments were received from:

- Department of Planning
- DPI Fisheries
- Quarantine Station Community Committee

				for DPE approval and includes requirements listed in condition 68.
				<u>GIS</u> GIS spatial layers in development by NPWS Spatial Team. This will be shared with the lessee via a Data Usage Agreement.
69	Shared Information System to be reviewed every 5 years.	Operation	On 12 December 2022 NSW Planning issued NPWS an Official Caution and Direction to deliver an Information Management System by 30 June 2023.	This condition relates to condition 68, above. The system will be reviewed during development and a framework put in place to ensure a 5-year review in 2028.
72	Aboriginal Heritage Management Plan requires review every 5 years.	Operation	Aboriginal Heritage Management Plan was last reviewed in 2008. On 12 December 2022 NSW Planning issued NPWS with a Direction to review the Aboriginal Heritage Management Plan by 30 June 2023.	Aboriginal Heritage Management Plan is included in the Group 1 Site Wide Plans that will be submitted to Department of Planning by 30 June 2023.
82	A review of the Conservation Works Program has not occurred since 2006.	Operation	On 12 December 2022 NSW Planning issued NPWS with a Direction to review the Conservation Works Program by 30 June 2023.	A Conservation Works Program will be included as part of the development computer-based information management system for annual review.

Condition of consent number	Non-Compliance	Development phase	Evidence and comments	Status
				<p>An annual review of the CWP is being developed for inclusion in 2023 annual environmental report.</p> <p>This will include a list of works (including regular maintenance works), priorities and when works are to be conducted (month/year).</p>
89	Movable Heritage Plan review to be approved by Heritage NSW	Operation	On 12 December 2022 NSW Planning issued NPWS with a Direction to review the Moveable Heritage Plan by 30 June 2023	The Moveable Heritage Plan was updated in 2021 and approved NSW Heritage.
94	Heritage Landscape Master Plan requires review every 5 years.	Operation	<p>Heritage Landscape Master Plan was last reviewed in 2006.</p> <p>On 12 December 2022 NSW Planning issued NPWS with a Direction to review the Heritage Landscape Plan by 30 June 2023.</p>	Heritage Landscape Master Plan is included in the Group 1 Site Wide Plans that will be submitted to Department of Planning by 30 June 2023.
96	Inscriptions Management Plan requires review every 5 years.	Operation	<p>Inscriptions Management Plan was last reviewed in 2006.</p> <p>On 12 December 2022 NSW Planning issued NPWS with a Direction to review the Inscriptions Management Plan by 30 June 2023.</p>	Inscriptions Management Plan is included in the Group 1 Site Wide Plans that will be submitted to Department of Planning by 30 June 2023.

Condition of consent number	Non-Compliance	Development phase	Evidence and comments	Status
99	Internal Fit Out Plan to be reviewed	Operation	<p>An Internal Fit Out Plan was approved by the Heritage Office on 13 June 2005</p> <p>On 12 December 2022 NSW Planning issued NPWS with a Direction to review the Internal Fit Out Plan by 30 June 2023.</p>	Internal Fit Out Plan is included in the Group 2 Site Wide Plans that will be submitted to Department of Planning by 30 June 2023.
103	Interpretation Plan requires review every 5 years.	Operation	<p>Interpretation Plan was last reviewed in 2005.</p> <p>On 12 December 2022 NSW Planning issued NPWS with a Direction to review the Interpretation Plan by 30 June 2023.</p>	Interpretation Plan is included in the Group 1 Site Wide Plans that will be submitted to Department of Planning by 30 June 2023.
109	Infrastructure Control Plan requires review every 5 years.	Operation	<p>Infrastructure Control Plan was last reviewed in 2008</p> <p>On 12 December 2022 NSW Planning issued NPWS with a Direction to review the Infrastructure Control Plan by 30 June 2023.</p>	Infrastructure Control Plan is included in the Group 1 Site Wide Plans that will be submitted to Department of Planning by 30 June 2023.
112	Outdoor Visitor Infrastructure to be reviewed	Operation	<p>The Outdoor Visitor Management Plan was last reviewed in 2005.</p> <p>On 12 December 2022 NSW Planning issued NPWS with a Direction to review the Outdoor Visitor Infrastructure by 30 June 2023.</p>	Outdoor Visitor Management Plan is included in the Group 2 Site Wide Plans that will be submitted to Department of Planning by 30 June 2023.
117	Security Plan requires review every 5 years.	Operation	Security Plan was last reviewed in 2005 as part of the Visitor Management Plan.	Security Plan is included in the Group 2 Site Wide Plans that will be

Condition of consent number	Non-Compliance	Development phase	Evidence and comments	Status
			On 12 December 2022 NSW Planning issued NPWS with a Direction to review the Security Plan by 30 June 2023.	submitted to Department of Planning by 30 June 2023.
119	Access Strategy requires review every 5 years.	Operation	<p>Access Strategy was last reviewed in 2005 as part of the Visitor Management Plan.</p> <p>On 12 December 2022 NSW Planning issued NPWS with a Direction to review the Access Strategy by 30 June 2023.</p>	Access Strategy is included in the Group 2 Site Wide Plans that will be submitted to Department of Planning by 30 June 2023.
138	Ferry service has ceased to operate between Manly and Quarantine Station	Operation	<p>The ferry service operated until the first 2020 COVID pandemic lockdown (March 2020)</p> <p>This service was since cancelled by RMS/NRMA.</p>	Negotiations are taking place with ferry operates with a view to resumption of the ferry service during 2023. Lack of demand when the service operated is a critical factor in the negotiations.
139	Water-based access. The proportion of visitors accessing the site by ferry is less than 40%.	Operation	<p>Ferry system is not currently in operation.</p> <p>Mawland, the previous lessee of the site, undertook all practical measures to achieve the required proportion of visitors to the site however the service was not popular.</p>	Negotiations are taking place with ferry operates with a view to resumption of the ferry service during 2023. Lack of demand when the service operated is a critical factor in the negotiations.
180	Co-proponents to contribute funding towards Manly Little Penguin long-term sustainability targets to be reviewed every 5 years.	Operation	Manly Little Penguin long-term sustainability targets last reviewed in 2015. 2020 report overdue.	NPWS and the Recovery Team are considering options for the viability of the population. A funding request to assist with documentation in leu of the PVA will be sought.
186	If there is a significant reduction in seagrass beds, consult with NSW Fisheries to	Operation	The ecologist commissioned by NHS will consult with NSW Fisheries, as required, if there has been a significant reduction in the seagrass beds	ongoing

	implement appropriate measures to reduce impacts.			
187	Implement adaptive measures resulting from seagrass monitoring if necessary	Operation	Noted	ongoing
190	Predator and Pest Control Plan to be reviewed every 5 years.	Operation	<p>Predator and Pest Control Plan was last reviewed in 2008.</p> <p>On 12 December 2022 NSW Planning issued NPWS with a Direction to review the Predator and Pest Control Plan by 30 June 2023.</p>	<p>The Predator and Pest Control Plan will be reviewed with the Group 1 Site Wide Plans that will be submitted to Department of Planning by 30 June 2023.</p> <p>NPWS review the Sydney North Area Rabbit Shooting Operations Plan and the Sydney North Area Fox Control Plan which includes North Head Quarantine Station annually.</p>
195	Environmental Management Plan	Operation	<p>On 12 December 2022 NSW Planning issued NPWS with a Direction to review the Environment Management Plan by 30 June 2023.</p>	<p>Environmental Management Plan is included in the Group 1 Site Wide Plans that will be submitted to Department of Planning by 30 June 2023.</p> <p>The Environmental Management Plan will include:</p> <ul style="list-style-type: none"> - Erosion and Sedimentation (Condition 197) - Waste Management (203) - Asbestos Sampling and Replacement Strategy (111)

Condition of consent number	Non-Compliance	Development phase	Evidence and comments	Status
				- Noise management plan (199)
205	Emergency and evacuation plan to be reviewed	Operation	The Visitor Management Plan was approved in 2005 and includes an Emergency and Evacuation Plan at section 7. The Plan was implemented.	Emergency and evacuation plan is included in the Group 2 Site Wide Plans that will be submitted to Department of Planning by 30 June 2023.
208	Visitor Management Plan to be reviewed every 5 years.	Operation	<p>Visitor Management Plan was last reviewed in 2005.</p> <p>On 12 December 2022 NSW Planning issued NPWS with a Direction to review the Visitor Management Plan by 30 June 2023.</p>	Visitor Management Plan will be reviewed with the Site Wide Plans in 2023.

Condition of consent number	Non-Compliance	Development phase	Evidence and comments	Status
212	Implement and update bushfire management plans applicable to the site	Operation	<p>North Head Fire Management Strategy last reviewed 2014.</p> <p>Review of Environmental Factors (REF) Clearing, Trimming and Management of Vegetation – QS last reviewed in 2009.</p> <p>On 12 December 2022 NSW Planning issued NPWS with a Direction to review bushfire management plans by 30 June 2023.</p>	<p>North Head Fire Management Strategy under review to be completed by mid-2023.</p> <p>REF to be reviewed in 2023 following a Bushfire Assessment Report.</p> <p>NPWS working group established</p>
216	Develop and implement an Integrated Monitoring and Adaptive Management System (IMAMS).	Operation	<p>An Integrated Monitoring and Adaptive Management System (IMAMS) program was developed in 2006 and operated until 2020. In 2020, a review of this system was requested by NSW Planning.</p> <p>On 12 December 2022 NSW Planning issued NPWS an Official Caution and Direction to develop an Integrated Monitoring Program by 28 February 2023.</p>	<p>Interim IMAMS submitted to DPE for approval 19 December 2022 via Major Projects Portal.</p> <p>IMAMS to be reviewed in 2023 and submitted to DPE Planning for approval.</p>
217	Required features to monitor for IMAMS program	Operational	On 12 December 2022. DPE Planning issued NPWS an Official Caution and a Direction to develop an Integrated Monitoring Program by 28 February 2023.	IMAMS review to include these items

4. Incidents

There was one incident during the reporting period.

- The site was closed on 18 July 2022 to enable a leak in a water main, within the site, to be found and repaired. The leak in the water main was located at the old Pump House below the water reservoir.

5. Complaints

No complaints were received during the 2022 reporting period.

6. Appendices

	Strategy to be submitted to the DEC and DIPNR for approval.				
Site Visitor Capacity					
120	<p>Visitation to the site and site visitor numbers must be in accordance with the following:</p> <ul style="list-style-type: none"> a) the optimum visitor capacity of the site is 315 people (including staff) at any one time. The co-proponents shall take all reasonable steps to ensure that the optimum visitor capacity (or less) is met for a majority of the time during which the site is publicly accessible; b) the maximum visitor capacity may be increased to 600 people (including staff) for up to 6 hours on up to 20 occasions per calendar year. Arrival and departure from these events must be distributed throughout the day period and these events must be held in accordance with the requirements of term 128 b) of the approval; 	Operation	NHS	<p>Except for general public who can enter the site at random, records for visitor numbers are held at reception by accumulation of all events on site for any given day and accommodation guests on site.</p> <p>The Sales / Event Department comply with this condition when booking in events taking advice from the NPWS Ranger when necessary. There were no instances in the reporting year where capacity was exceeded or increased to 600 people.</p> <p>Access to the Beach and Wharf is restricted by closure of the beach and wharf gates at sunset. The key is held by the General Manager and the Duty Manager in case of emergency.</p>	Compliant

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
	<p>c) evening and night time events and functions are to avoid high value bandicoot foraging habitat. Identification of high value bandicoot foraging habitat is to be determined by NPWS; and</p> <p>d) access to the Wharf and Quarantine Beach is to be prohibited during evening and night time events and functions. This does not preclude normal operations undertaken as part of the restaurant in building A6, including the outdoor eating area.</p>				
120A	<p>Site Travel and Access Plan must be prepared by a suitably qualified consultant, to the satisfaction of the Secretary, that details management measures to be implemented, at a minimum, for at least 5 event sizes, including those presented in Term 120, and is to include detail of the following:</p> <p>a) mode share targets and measures of how these will be implemented, monitored and achieved including details of the financial and human resources</p>	Operation	Mawland	The Site Travel and Access Plan was approved by the Department of Planning & Environment on 14/9/2018	Compliant

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
	<p>required to implement the targets;</p> <p>b) b) anticipated number and types of vehicles arriving at the site and car parking provisions for both staff and visitors;</p> <p>c) the management of the site car park (i.e. car park wardens/ traffic controllers) and management measures to ensure site visitors do not impact upon the parking provisions of North Head;</p> <p>d) detail of arrival and departure times and detail of how impacts of this upon existing traffic flows at North Head will be mitigated; and</p> <p>e) a map clearly delineating site access and parking provisions for various sized events of up to 600 people.</p> <p>The co-proponents must not hold have more than 450 people on site until the Site Travel and Access Plan is approved by the Secretary.</p>				

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
	The Site Travel and Access Plan must be implemented by the co-proponents for the duration of the Lease agreement.				
121	Any proposal to increase the site capacity or the optimum visitor capacity after this time must be publicly exhibited and submitted for the approval of the DEC and DIPNR. The proposal must be accompanied by a clear assessment of the potential impacts of any increase on the significance of the Quarantine Station and justification based on the results of the visitor and site monitoring programs	Operation	NHS	There was no proposal to increase the site capacity or the optimum visitor capacity during the reporting period.	Not Triggered
Pricing					
122	The co-proponents shall ensure that all services and facilities at the site are made available at varying price-scales, commensurate with the standard of service to be provided, to facilitate choice and encourage equitable community access to the site. This shall include, but not be limited to, accommodation, tours, interpretive activities and educational facilities.	Operation	NHS	Details are available on the Q Station website of all services, facilities, and prices: https://www.qstation.com.au/room-options.html https://www.qstation.com.au/conference-packages.html	Compliant

123	Concessional pricing shall be provided for all tours and interpretive activities at the site.	Operation	NHS	Concession rates are available for all tours https://www.qstation.com.au/ghost-tours.html	Compliant
Access To The Second Cemetery					
124	Based on the options identified in the Heritage Landscape Master Plan [condition 92) i)] suitable arrangements for providing managed access to the Second Cemetery shall be provided within 18 months of the commencement date. If measures for managed access have not been implemented after 18 months regular public access to this area shall cease until such arrangements are in place. In the meantime, access to the Second Cemetery shall be limited to one tour group of up to 25 persons at any one time. If any adverse impacts are identified prior to the access system being implemented, measures to reduce such impacts shall be introduced following consultation with the DEC.	Construction	Mawland	The Heritage Landscape Management Plan 2005 was approved by Q Station in May 2006, National Parks and Wildlife Services in September 2006 and NSW Heritage Office in September 2006. Section 5.5.3.12 of the Heritage Landscape Management Plan contains details regarding access to the Second Cemetery.	Compliant

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
Special Events, Functions And Free Open Days					
125	The number of special events or activities requiring overflow parking shall be limited to 6 per year. Special events include uses (eg. re-enactments, festivals, etc) and public open days that are not part of the normal operations (eg. tours) and extend beyond those function, conference, accommodation and restaurant uses identified in the PAR.	Operation	NHS	There were no events during the reporting period that required the use of overflow parking.	Not Triggered
126	At least two free public open days are to be held at the site every year. The open days shall be held on either a weekend or public holiday. They shall include opportunities for people to participate in organised tours and interpretive activities that promote an understanding of the site's values, at no cost. Tours and activities may also be provided that outline the methods of conservation and management being used at the site, also at no cost. A booking system may be used to ensure that the site capacity limits in condition 120) are not exceeded.	Operation	NHS	Two free public open days were held this reporting period on the 5 June 2022 and 25 September 2022.	Compliant

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
127	<p>Special event and public open day proposals are to be submitted to the DEC for approval. The co-proponents shall also consult with the Quarantine Station Community Committee and Manly Council prior to submission to the DEC. Proposals may only proceed if the DEC is satisfied that:</p> <ul style="list-style-type: none"> a) sufficient traffic and car-parking and pedestrian management measures will be provided (both on and off-site); b) noise and light impacts will be minimised; and c) that the proposal will promote or enhance the interpretation of the place. <p>The DEC may direct the co-proponents to undertake all practicable steps to address the above matters and to ensure that the minimum number of public open days are provided in accordance with condition 126).</p>	Operation	NHS	<p>There were no special events during the reporting period.</p> <p>Open days were approved by NPWS.</p>	Compliant
128	<p>Any special events or functions held after sunset shall:</p> <ul style="list-style-type: none"> a) if they are to be held outdoors, be located away from the areas 	Operation	NHS	Noted	Compliant

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
	<p>identified as high-use Long-nosed Bandicoot foraging habitat in the DACMP (Illustration 15) or the revised habitat assessment (condition 165); or</p> <p>b) if they are to be held in the Wharf Precinct, must be held indoors This does not preclude normal operations undertaken as part of the restaurant in building A6, including the outdoor eating area.</p>				
Night Tours					
129	For the first three years after the commencement date the maximum number of visitors on night tours shall not exceed 100 persons and 3 tour groups on the site at any one time. After this time any proposal to increase night tour capacities must be submitted for the approval of the DEC. The proposal must be accompanied by a clear assessment of the potential impacts of any increase on the significance of the Quarantine Station and justification based on the results of the visitor and site monitoring programs (particularly	Operation	NHS	No change to capacity of tour groups required. Capacity is rarely met for tours.	Not Triggered

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
	monitoring Long-nosed Bandicoot foraging activity).				
130	Night tours are to be undertaken on formed roads, paths or the Funicular stairway, unless part of an approved special interest tour.	Operation	NHS	No night tours are conducted on any part of the site except formed roads and paths.	Compliant
131	Unless approved as part of a special interest tour, measures are to be taken to ensure that night tour patrons do not use spotlights or flash-photography in outdoor areas (with the exception of the lanterns or torches used as part of the ghost tours).	Operation	NHS	A full safety briefing is given at the start of each tour. This covers personal safety, photography, and directions on night time tours.	Compliant
132	At the conclusion of any night tours on site, arrangements are to be made to transport visitors in an orderly manner from the conclusion point of the tour to the: <ul style="list-style-type: none"> a) accommodation area (for those visitors staying on site overnight); b) relevant car park (for those visitors departing by car or bus); or c) to the Wharf Precinct (for access to the ferry). 	Operation	NHS	All night tours end at the Wharf Precinct where patrons are then taken to reception area by shuttle bus.	Compliant

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
	This may include, but is not limited to, the use of a shuttle bus or groups led by a guide.				
133	Notwithstanding the provisions of condition 129), the DEC may at any time direct that night tour numbers are reduced, and/or other appropriate measures implemented, if it is satisfied on the basis of monitoring programs that night tours are having adverse impacts on the Long-nosed Bandicoot population. The co-proponents shall comply with any such directions issued by the DEC.	Operation	Joint	No directions were made by DEC/NPWS during the reporting period.	Not Triggered
Special Interest Tours					
134	No special interest tours may be run without the approval of the DEC (this may be undertaken as part an application for a tour operators license under the NPW Act). This will include tours to Store Beach, Cannae Point or other areas of the site (including bushland areas, rocky foreshores, Old Mans Hat and the cemeteries). This excludes the four main tours proposed by the co-proponents in the PAS. In seeking approval for special interest	Operation	NHS	There were no special interest tours during the reporting period.	Not Triggered

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
	<p>tours, the following information shall be provided to DEC:</p> <ul style="list-style-type: none"> a) proposed frequency and size of tours; b) compliance with the Access Strategy and Interpretation Plan (conditions 118) 100); c) details of the tour activities and route, including buildings and other features to be visited; and d) a statement identifying and addressing any potential environmental issues that may arise, including management of visitor safety, and measures to address these. 				
135	The co-proponents shall ensure that any approved special interest tours are subject to a specific monitoring and review program to enable assessment of potential visitor impacts.	Operation	NHS	There were no special interest tours during the reporting period.	Not Triggered
School And Educational Programs					
136	Provision shall be made for school groups to have access to the site without the need to stay overnight.	Operation	NHS	Noted	Compliant

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
137	Overnight educational programs must ensure a high-level of student supervision to prevent uncontrolled night activities or access across the site. Students must also be supervised during any periods of student “free-time” during the day and confined to distinct areas of the site, that is there is to be no general or uncontrolled access across the site.	Operation	NHS	Noted, there was only one overnight educational program during the reporting period. Students were supervised at all times by employees of the school.	Compliant

Water-Based Access

138	<p>The ferry service between Manly and the Quarantine Station site shall:</p> <ul style="list-style-type: none"> a) commence within 6 months of the commencement date or, if this cannot be achieved due to circumstances beyond the reasonable control of the co proponents, within such other time as the DEC may approve; b) generally arrive and depart between the hours of 9:00 am and 11:00 pm respectively; c) be limited to a maximum of one movement per hour, after sunset, between July and February inclusive, to reduce the 	Operation	NHS	The ferry service operated to this timetable until the first 2020 COVID pandemic lockdown (March 2020). This service was then cancelled by RMS/NRMA. Discussions are continuing as to restoration of the ferry service.	Non - Compliant

Visitor Monitoring					
General					
156	<p>A visitor monitoring program is to be established in accord with Policy AIP 3.2 in the DACMP and submitted for approval as part of the final Access Strategy (condition 118). In addition to the matters specified in AIP 3.2, the program must also make specific provision for the monitoring of:</p> <ul style="list-style-type: none"> a) visitor numbers, capacities and entry details (eg. booked on a tour, accommodation booking, or unbooked day visitor); b) mode of access to the site; c) visitor profiling (to include age, cultural background, language spoken, geographic origin, disability status); d) visitor impacts on the site's values, including both physical impacts (such as measurable damage or wear to fabric, impacts on fauna behaviour, etc) and non-physical impacts (such as amenity); and 	Operation	NHS	<p>Section 5 of the Visitor Management Plan includes details of Visitor Monitoring.</p> <p>The Visitor Management Plan was approved by National Parks and Wildlife Services on 13 July 2005 and DIPNR on 10 August 2005.</p>	Compliant

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
	e) measures taken, or proposed to be undertaken, to minimise private vehicle access. This should include the progress or outcomes of any negotiations with other North Head land managers regarding off-site car-parking.				
157	Where the visitor monitoring program identifies adverse impacts associated with the activity the co-proponents must, in consultation with the DEC, identify and implement appropriate management responses. These may include, but are not limited to, altering any relevant activity, temporarily ceasing specific activities or ceasing some uses altogether if impacts cannot be adequately addressed.	Operation	NHS	No adverse impacts were identified during the reporting period	Not Triggered
FLORA, FAUNA AND MARINE ENVIRONMENT					
General					
158	The co-proponents shall engage a person(s) trained in basic fauna and flora identification and in possession of the appropriate licences (eg. for fauna handling) to monitor construction activities for the duration of the work.	Operation	NPWS	There were no construction activities during the reporting period.	Not Triggered

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
	<p>The functions of that person(s) shall include, but are not limited to:</p> <ul style="list-style-type: none"> a) the inspection of work areas every morning prior to work commencing to allow the identification and relocation of any fauna species present (fauna are to be re-located to the nearest area of suitable habitat within the site); and b) the regular inspection of work areas at other times to ensure no inadvertent impacts to flora and fauna are occurring. The person(s) is to report directly to the Environmental Manager. 				
159	Any fencing or barriers to be provided for active work areas shall not limit the general movement of fauna across the site. However, sites of specific potential risk to fauna (e.g. Open excavation) shall include measures to prevent fauna access (e.g. limited fencing or covers) and/or to allow their egress/escape (e.g. earth ramps).	Operation	Joint	There were no active work areas within the reporting period that required fencing or barriers to be erected.	Not Triggered

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
160	No hollow-bearing trees or threatened flora are to be removed, although limited lopping or trimming may occur with approval from the DEC. Existing Coral trees in the Wharf Precinct shall be the subject of regular inspection and maintenance by a suitably qualified person to ensure safe access to this area for site visitors. Any areas proposed for vegetation clearance or removal are to be surveyed by a suitably qualified person for the presence of hollow-bearing trees and threatened flora, which are to be clearly tagged and identified for retention.	Operation	NHS	<p>No hollow bearing trees or threatened flora were removed during the reporting period.</p> <p>There were no areas proposed for vegetation clearance or removal during the reporting period.</p> <p>During the reporting period NHS complied with the requirements of this condition.</p>	Compliant
161	The proposed design and location of any artificial nesting sites or boxes (including for Little Penguins) are to be endorsed by the DEC. Nest boxes are to be designed to limit the potential for use by possums.	Operation	Joint	No nest boxes were required to be installed during the reporting period.	Not Triggered
162	Details of the methods and approaches to be used in meeting the monitoring requirements specified in the conditions of approval for Long-nosed Bandicoots and Little Penguins will be submitted to	Construction	NPWS	Little Penguin and Long-nosed bandicoot monitoring methods and approaches were approved by NPWS as part of their recovery programs.	Compliant

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
	the DEC for approval prior to monitoring commencing.				
Long-nosed Bandicoot					
General					
163	Within 6 months of the commencement date the co-proponents shall update signage along Darley Road and into the Quarantine Station to strengthen warnings to vehicle drivers regarding the presence of Long-nosed Bandicoots and the need for slow and careful driving (see also conditions 145 -146).	Construction	NPWS	Long-nosed Bandicoot warning signage has been erected as required by this condition.	Compliant
164	Grassed areas on the site must be kept in good condition. No fertilisers or chemicals should be applied to open grassed areas, except where this is essential to the repair and stabilisation of existing eroded areas and is consistent with the provisions of the approved Heritage Landscape Master Plan (condition 91).	Operation	NHS	Grassed areas are inspected and mowed regularly and watered when necessary. No fertilisers or chemicals are used on grassed areas.	Compliant
165	Within 12 months of the commencement date the co-proponents shall undertake further assessments to refine the mapping of high-use Long-nosed	Operation	NPWS	The Heritage Landscape Management Plan is included in Site Wide Plans to be reviewed in 2023.	Compliant

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
	Bandicoot foraging habitat and to identify suitable potential areas and techniques for habitat enhancement, reconstruction and rehabilitation. The outcomes of the assessment should be informed by the monitoring program specified in Schedule 5 and are to be submitted to the DEC for approval and incorporated into the Heritage Landscape Management Plan (condition 91) prior to any habitat works commencing.				
166	Any works undertaken for the activity that involve the loss of, or damage to, Long-nosed Bandicoot foraging habitat shall be offset by the undertaking of habitat enhancement, reconstruction or rehabilitation works on an area elsewhere at North Head that is at least ten times the size of the area impacted.	Operation	Joint	No works were undertaken that involved loss of or damage to Long-nosed Bandicoot foraging habitat during the reporting period.	Not Triggered

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
Monitoring					
167	The co-proponents shall implement the monitoring program detailed in Schedule 5.	Operation	NPWS	Refer to Schedule 5 for action by NPWS	Compliant
Adaptive Management – Foraging Habitat					
168	If the monitoring of bandicoot activity and use of foraging habitat indicates a statistically significant reduction in bandicoot numbers between the control and non-control areas over two consecutive years, measures will be taken, in consultation with the DEC, to reduce the extent of light, noise and activities at relevant locations. Measures may only be reversed or altered with the approval of the DEC (see also condition 133).	Operation	Joint	As there was no significant reduction in bandicoot numbers between the control and non-control areas over two consecutive years, no such measures were required during the reporting period.	Not Triggered
Adaptive Management – Road Mortalities					
169	All adaptive management measures presented within Schedule 6 must be implemented and the co-proponents	Operation	Joint	Refer to Schedule 6 on page 172 of the AER.	Compliant

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
	must contribute to the mitigation of potential impacts on the Long-nosed bandicoot population across North Head. This includes, but is not limited to, participation in the North Head Stakeholder Group, or its successors. The co-proponents will actively promote awareness of the need for bandicoot protection across North Head.			The co-proponents are active members of the North Head Stakeholder Group and as such actively promote the awareness of the need for bandicoot protection across North Head.	
169A	The co-proponents must provide signage at the entrance to Sydney Harbour National Park near Parkhill Archway, to indicate the number of Long-nosed Bandicoot road mortalities recorded on North Head. The sign(s) shall include, but not be limited to, a short statement regarding the endangered status of the population, its estimated population size (within North Head), the threat that road deaths pose to its continued survival, the total number of road deaths from the previous year and a running tally of the number of deaths during the current calendar year. The tally shall be updated after each confirmed road death as recorded on the mortality register referred to in Schedule 5. The sign shall also include a 24 hour phone	Operation	NPWS	Signage has been erected by NPWS as required by this condition. Signage includes a running tally of road deaths and is regularly updated by NPWS Ranger.	Compliant

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
	number (see also Term 6) to allow members of the public to inform the lessor of any mortalities and what to do if an injured bandicoot is found.				
Calculating The Background Level Of Adult Road Mortalities					
170	For the first year following the commencement date the background adult road mortality level is set at 10 deaths in 6 consecutive months. The background adult road mortality level is to be recalculated at the end of each consecutive year of mortality monitoring as detailed in Schedule 7.	Operation	NPWS	<p>NPWS maintains a register for Long-nosed Bandicoot mortality for the site.</p> <p>The total number of deaths recorded in 2022 on Q Station was one (1 death).</p>	Compliant
Future measures					
171	The Lease shall stipulate requirements regarding the provision of funding to the OEH to undertake a revised population viability assessment (PVA) for the Long-nosed Bandicoot every 6 years from the determination date of Modification 3.	Operation	NHS	The lease registered number AC928975 provides for funding to NPWS to undertake PVA for the Long-nosed Bandicoot every six years. The last PVA was undertaken in 2020.	Compliant
172	Based on the revised PVA, the provisions of any adopted recovery plan for the Long-nosed Bandicoot population and following consultations	Operation	Joint	The 2020 PVA did not trigger the need to revise thresholds, background adult road mortality	Not Triggered

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
	with the co-proponents, the Minister for the Environment may recommend to the Minister for Infrastructure, Planning and Natural Resources that the trigger thresholds, background adult road mortality levels and/or adaptive management measures be revised. Prior to the Minister for Infrastructure, Planning and Natural Resources agreeing to any significant revised measures, the details of the proposal and the PVA are to be made available for public comment.			levels/and or adaptive management measures.	
173	The co-proponents shall ensure that the undertaking of the activity complies with any revised measures specified in condition 172).	Operation	Joint	There were no revised measures to comply with this reporting year.	Not Triggered
Little Penguins					
General					
174	Prior to the opening of the restaurant in Building A6 for public use or the commencement of ferry services to the site (whichever comes first), and following approval of the detailed designs by the DEC, Permanent barrier fencing (that maintains access for	Operation	Joint	a) Permanent fencing was previously installed that provides protection for the little penguin colony and prevents human access to the little penguin habitat.	Compliant

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
	<p>penguins) shall be provided to actively discourage human access to Little Penguin habitat at:</p> <ul style="list-style-type: none"> a) the northern end of Quarantine Station Beach, in the vicinity of the mean high water mark. The fence shall include signage to indicate that no access along the rocky foreshores is permitted; b) the southern end of the Quarantine Station Beach, in the vicinity of the cliff-line and water's edge adjacent to the concrete slipway (W1/A13a). The fence shall include signage to indicate that no access along the rocky foreshores is permitted; and c) at least 1.5 metres from the western edge of the existing drain adjacent to Building A6 (ie. towards the building). Consideration shall be given to the use of dense plantings, rather than a fence made of timber or other materials, in the design of the barrier. <p>To avoid adverse visual or cultural impacts the fences shall be constructed</p>			 <p>Image: Penguin protection fencing</p> <ul style="list-style-type: none"> b) Fencing previously installed at the southern end of the Quarantine Station Beach, in the vicinity of the cliff-line and water's edge adjacent to the concrete slipway (W1/A13a). 206	All staff shall be made aware of the plan and its provisions and be trained in the operation of emergency equipment. Records of staff training will be kept by the co-proponents and included as part of the annual environmental report (see condition 221).	Operation	NHS	All staff are made aware of the emergency and evacuation plan and are trained in the operation of emergency equipment. Records of staff training are held by the General Manager of Q Station.	Compliant
207	The plan is to be displayed at prominent locations within the site and is to clearly highlight the recommended actions and 24 hour telephone contacts for emergency situations.	Operation	NHS	The plan is in every room near the door and in all room compendiums and restaurants. The plan is also located at reception.	Compliant

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
208	The co-proponents shall undertake a review of the plan every five years after the commencement date for the duration of the activity or earlier if considered necessary by the DEC. The review shall be prepared in consultation with the agencies specified in condition 205). On the basis of the review the co-proponents shall, as necessary, prepare a revised Emergency and Evacuation Plan to be submitted to the DEC for approval.	Operation	NHS	The Visitor Management Plan will be reviewed with the Site Wide Plans in 2023.	Non - Compliant
Fire Safety					
209	The co-proponents shall prepare a fire safety schedule for each building on the site. The schedule shall be submitted to DEC for approval prior to occupation or use of a building on the site for the activity. The schedule shall be prepared in accordance with the NPWS Construction Assessment & Approvals Procedure and the following specific requirements:	Construction	Mawland	A fire safety schedule was prepared and submitted to DPE Planning	Compliant

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
	<ul style="list-style-type: none"> a) be prepared by a Fire Protection Consultant with at least 5 years' experience; b) identify fire safety services to be installed (including type of service, location and other specifications) to meet BCA standards (or an acceptable alternative); c) identify interim fire safety measures that could be implemented to allow the use of buildings in the short term; and d) provide a statement outlining the potential impact of the work on the heritage significance of the building, and proposed mitigative measures. 				
210	No building on the site shall be occupied or used after the commencement date until such time as fire safety measures have been implemented and an interim or final Fire Safety Certificate issued in accordance with the NPWS Construction Assessment and Approvals Procedure. This includes any purposes that were being undertaken prior to the commencement date. In the event of any inconsistency this condition	Construction	Mawland	A Fire Safety Certificate was issued	Compliant

CoPA	Compliance requirement	Development phase	Responsibility (NPWS, North Head Sydney or Joint)	Evidence and comments	Compliance status
	shall prevail over any other condition of approval (with the exception of condition 50).				
211	<p>The co-proponents shall also undertake the following fire safety measures:</p> <ul style="list-style-type: none"> a) all buildings are to be brought up to BCA standards for fire safety (or an acceptable alternative). This shall occur in stages to match the staging plan for works, as amended by condition 31); b) an upgrade of the fire hydrant system to meet NSW Fire Brigade standards shall be completed within 5 years of the commencement date. In the meantime, the co-proponents shall ensure that the fire measures detailed in the emergency and evacuation plan (condition 205) are in place and functioning; c) an annual fire safety statement of the site buildings, prepared in accordance with the NPWS Construction Assessment & 	Operation	NHS	<p>Celsius Fire are the main contractor providing monthly/6 monthly inspections on all fire suppression equipment. This includes fire extinguishers, fire hose reels, smoke and fire alarms in all rooms and a sprinkler system to all buildings from P1-P12. The central fire hydrant system is also tested.</p> <p>The fire control panels are registered with ADT who monitor all faults and advise North Head Sydney accordingly. If there is a major fault in the system from smoke alarms /sprinklers the local fire brigade is alerted and attend to the situation.</p>	Compliant

First and Second Class	to be replaced with new poles of a similar size and materials (DACMP CPP 16.8.2).		
Gravel path from P12 to top of the Funicular stairway	<ul style="list-style-type: none"> The proposal gravel path (as shown in Figure 2.1 of the PAS) is not approved, as this is an area of potential foraging habitat for Long-nosed Bandicoots and in accordance with DACMP Policy GCP13.3.29. 	There has been no application seeking approval for this aspect of the activity.	Not Triggered

SCHEDULE 3

ASPECTS OF THE PROPOSAL APPROVED SUBJECT TO MODIFICATION OR DETAILED DESIGN (CONDITION 18)

The following aspects of the proposal are approved, subject to achievement of the specific outcomes and objectives shown in the table and:

- Compliance with the Quarantine Station Archaeological Management Plan (AMP)
- Any necessary approvals being obtained from the NSW Heritage Council; and
- Compliance with the NPWS Construction Assessment and Approvals Procedure

Approved	Specific Outcomes / Objectives	Comments	Compliance Status
Cross Precinct Issues			
Various buildings: methods for cooling and heating rooms	<ul style="list-style-type: none"> • Rooms to be used for dining, kitchens, function and conference related purposes, as well as archival or records storage and administration may include appropriate contemporary technologies for cooling and heating, which includes installation of room air-conditioning in accordance with Heritage Council approval dated 2 March 2017 that can be reversed at any time. • Ceiling fans may be installed in other buildings, with preference to fans mounted over the ceiling light to minimise fabric impact. • Details of any proposed cooling and heating systems shall be included in the construction works application for the particular building. The application must demonstrate that the proposed system: <ul style="list-style-type: none"> ○ Will have as little adverse impact on significant fabric as practicable; ○ Will not have significant adverse visual impacts; and • Is clearly capable of being removed, and fabric reinstated, at some future point consistent with the principle of reversibility. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered

Road repairs	<ul style="list-style-type: none"> No timber kerbs are to be installed as this is contrary to the DACMP policy GCP 13.3.43, which states that new retaining walls (this includes kerbs) should be sympathetic to neighbouring examples in terms of scale, material and texture. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
Lower Reservoir – water reservoirs/tanks	<ul style="list-style-type: none"> Full details of the proposed design and layout of the water reservoirs and associated infrastructure are to be submitted to the DEC. This shall include evidence of consultation with Sydney Water (condition 16). 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
Excavation and installation of second water network for fire purposes	<ul style="list-style-type: none"> Relevant assessments are to be undertaken in accordance with the Archaeological Management Plan. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
Symbolic fences	<ul style="list-style-type: none"> Location and design options for the symbolic fences are to be addressed in the outdoor visitor infrastructure plan (condition 112). Documentary evidence of earlier fences and/or boundary markers must be considered. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
Artificial foraging habitat for Long-nosed Bandicoots – below P1, A28-29, P3, P5, P7 and near CP5	<ul style="list-style-type: none"> Habitat reconstruction and/or rehabilitation shall only occur in accordance with the revised habitat assessment (condition 165). 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
Wharf Precinct			
Removal or modification of the existing fence along the beachfront.	<p>Any modification or replacement of the existing fence shall occur in accordance with the following criteria:</p> <ul style="list-style-type: none"> the design and materials will reflect the historic separation of uses and the need to provide adequate security (especially at night), but may 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered

	<p>allow for improved views and reduced visual impacts;</p> <ul style="list-style-type: none"> • limited openings in the fence may be provided, but must be capable of being closed for security reasons. Suitable areas include near the wharf and behind building A7; • there shall be no openings at the northern end of the beach in the immediate vicinity of the outdoor eating area at A6, with the exception of openings to assist the movement of Little Penguins. Any existing openings in this area are to remain closed and are not to be available for general public access to the beach; • any openings shall be of the minimum width necessary, but may be capable of being expanded in the event of an emergency; • any openings are to include measures to protect the dunes and grassed areas and to prevent erosion; and • temporary signage is to be provided on the beach during the Little Penguin breeding season, as detailed in condition 175). 		
Waterfront forecourt	<ul style="list-style-type: none"> • Design of sculptures to be approved by DEC. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
A14-17 – Visitor Centre	<ul style="list-style-type: none"> • The theatrettes are to follow the general layout and direction shown in Drawing No. L-A14-17 of the PAS, but options shall be investigated to provide for a greater retention of luggage racks. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
Open area between A7, A8 and A11-12	<ul style="list-style-type: none"> • A5 symbolic presentation - removal of the bitumen to uncover footings is to occur in accordance with the provisions of the AMP. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
A6 – shade structures	<p>Indoors</p> <ul style="list-style-type: none"> • The timber platform may be relocated to another area within A6 if necessary. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered

- The construction works application shall specifically address the following matters:
 - Provide details of access and serving arrangements for sit-down and take-away food provision;
 - Details of the proposed mezzanine, which shall be generally in accordance with the preliminary details provided by the Proponent and NPWS on 14 October 2002, and designed to minimise the mezzanine floor area (eg. By efficient table layouts);
 - Demonstrate that the proposal will have as little adverse impact on significant fabric as practicable;
 - Demonstrate that the exhaust flue will have as little adverse visual impact on the external appearance of the building as practicable; and
 - Demonstrate that the finishes, equipment and services required for the restaurant operation are clearly capable of being removed, and fabric reinstated, at some future point consistent with the principle of reversibility.

Outdoors

- The boundary of the outdoor eating area must correspond with the beachside building line of A6.
 - The existing coral trees in the vicinity of the outdoor eating area shall be regularly inspected and maintained in accordance with condition 160.
 - A shade structure/s over the outdoor eating area beside the Boilerhouse (Building A6) may be provided in accordance with approval granted by NSW Heritage Division (or any subsequent agency).
 - Individual umbrellas and/or temporary shade structures are permitted in outdoor eating areas,
-

	<p>including the wharf area, where there is no permanent shade structure.</p> <ul style="list-style-type: none"> Any umbrella or shade structure must be positioned as to minimise, to the maximum extent possible, any adverse visual impact. It shall not contain any third-party advertising to the site and its operation. The colour and nature of shade structures and/or umbrellas is to be neutral and in keeping with the natural environment The colour, type, location, time limits and frequency of use of umbrellas or any shade structure must be approved by the Heritage Council prior to commencing use. 		
A6 – sewer outlet	<ul style="list-style-type: none"> The final route is to be determined following completion of assessments in accordance with the AMP and following approval of the Infrastructure Control Plan (condition 105). 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
Construction of stairway over the former funicular railway	<p>The final location of the route is to be determined following the outcomes of an archaeological assessment in accordance with the AMP.</p> <ul style="list-style-type: none"> The stairway width shall be kept to the minimum necessary to comply with BCA requirements. No viewing or landing platforms shall be constructed, except where these may be necessary to achieve compliance with the BCA. Preference shall be given to a metal construction, rather than timber, with the physical footprint of the structure kept to the minimum necessary to comply with the BCA. The structure shall be of a colour that allows it to blend with the surrounding landscape. The entire route of the former Funicular shall be identified and interpreted. Lopping, trimming or removal of vegetation adjoining the stairway shall not occur, except 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered

	where this is necessary as part of the stairway construction process or for on-going public safety. Vegetation shall not be removed for the sole purpose of improving views from the stairway.		
Bitumen pathway to hospital	<ul style="list-style-type: none"> Options for managing public access to the inscriptions, including re-alignment of the walkway, are to be considered in development of the Inscriptions Management Plan (condition 95). 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
Second Cemetery	<ul style="list-style-type: none"> Options for re-instatement of headstones are to be addressed in the Heritage Landscape Management Plan (condition 91). Any proposal to re-instate headstones must be based on archival evidence regarding the original location of headstones. Where this is not available, the manner of reinstatement must clearly demonstrate this lost knowledge. Any evidence of graves, including clay banking from 1881, shall be retained as per DACMP Landscape Data Sheet L01 and L01a. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
Building S9	<ul style="list-style-type: none"> Research into the construction history of the building is required prior to undertaking any works on this building. The results of this research should form the basis for developing an approach to the ongoing use and maintenance of this building. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
Building P14-16	<ul style="list-style-type: none"> Detailed design work is to be submitted for proposed alterations to the shower and toilet blocks to address the requirements of the DACMP and relevant public health and educational facility requirements. If the public health and educational facility requirements cannot be met without significant departure from the provisions of the DACMP, then the alterations shall not proceed and alternative bathroom and shower arrangements must be made. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered

	<ul style="list-style-type: none"> • Alternate options to carpeting within this building (eg. rugs) consistent with DACMP requirements for floors must be submitted. 		
Building P28-29	<ul style="list-style-type: none"> • Retention of as much significant fabric as possible in accordance with DACMP Building Date Sheet P28-29. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
Hospital and Isolation Precinct			
H6	<ul style="list-style-type: none"> • Details of the approach to rectifying any problems associated with rising damp are to be submitted. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
H7-11 – accommodation	<ul style="list-style-type: none"> • Details of options for the retention of the 1914-1916 fabric and at least some of the 1958 fabric, in accordance with DACMP requirements, are to be submitted 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
H15	<ul style="list-style-type: none"> • The addition of a free standing timber platform above the ground alongside H15 is approved, subject to the submission of design details that demonstrate this would not significantly alter the form of the building, its appearance, starkness in the landscape or its basic amenity (DACMP Building Date Sheet H15). • The timber platform shall be designed and constructed to be reversible and should be constructed close to the ground to minimise the need for a balustrade. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
Administration Precinct			
S2	<p>Adaptation must retain as much significant fabric as possible as specified in DACMP Building Data Sheet S02. Particular attention shall be given to:</p> <ul style="list-style-type: none"> • retention of as much of the partition layout as practicable; • assess options for providing efficient guest access to the building, including swapping the location of the reception and guest lounge rooms as shown in 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered

	<p>Drawing No. L-S2 of the draft Site Master Plan (EIS Vol. 3);</p> <ul style="list-style-type: none"> • assess options for disabled access to the building; and • removal of the lattice screen to the eastern verandah. • Refer also Schedule 2. 		
S4	<ul style="list-style-type: none"> • Reconstruction of the verandah shall occur following completion of research regarding an appropriate design. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
A28-29 – visitor shelter	<ul style="list-style-type: none"> • Details of the proposed mural are to be submitted to the DEC for approval. • Provision for the retention of as much original fabric as possible shall be made in finalising detailed design plans for this building in accordance with DACMP requirements. • A sub-floor archaeological assessment is to be completed. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
A20	<ul style="list-style-type: none"> • Details of the proposed sampling approach to conservation of fabric, as per DACMP Building Data Sheet A20, are to be submitted. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
A26 – visitor shelter	<ul style="list-style-type: none"> • Details of the proposed mural are to be submitted to the DEC. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
A2	<ul style="list-style-type: none"> • Final design and material details for the entry area being submitted in accordance with the approved Heritage Landscape Master Plan (condition 91). • Adaptation must retain as much fabric as possible as specified in DACMP Building Data Sheet A02. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
First and Second Class Precincts			
Eastern perimeter of road	<ul style="list-style-type: none"> • Service trench – assessments must be completed in accordance with the AMP. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered

through First and Second Class			
P1, P2	<ul style="list-style-type: none"> Complete removal of all wall hot water tanks is not appropriate. Details of a sampling strategy must be submitted. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
P1, P2 and P9	<ul style="list-style-type: none"> Corridors in these buildings shall be retained as a functioning part of the building. That is, they will be available for use by guests. Internal doors from rooms into these corridors must not be permanently sealed. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
Re-instatement of badminton base, croquet lawn and tennis court	<ul style="list-style-type: none"> Options for re-instatement are to be addressed in the Heritage Landscape Management Plan (condition 91). 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered
Building P11, P12	<ul style="list-style-type: none"> Consistent with DACMP Building Data Sheets P11 and P12 the reconstruction of former stairs on the western elevation of buildings and the uncovering of fireplaces must be addressed in the construction works application for these buildings. 	No works relating to this aspect of the approval were carried out during the reporting period.	Not triggered

SCHEDULE 4

WORKS ASSOCIATED WITH THE WHARF (CONDITION 42)

Condition Number	Condition	Comments	Compliance Status
1	<p>The following information shall be provided with the application:</p> <ul style="list-style-type: none"> a) Four copies of detailed dimensioned working drawings, all signed by the co-proponents (or their delegate), complying with the “Guidelines for Waterside Structures” fully and clearly describing all the proposed works and their components; b) A condition survey report that includes <ul style="list-style-type: none"> • Appropriate photographs • A detailed engineering commentary on the structure integrity of appropriate elements of the existing wharf • Appropriate sketches or drawings; c) A diver’s inspection and pile inspection report; d) Calculations to verify that the existing wharf is structurally sufficient to carry the proposed loads; e) Correspondence from the operator that the wharf will be satisfactory for its intended use; and f) Details of appropriate lighting to the wharf deck 	No works were undertaken to the wharf during the reporting period.	Not triggered

Condition Number	Condition	Comments	Compliance Status
2	<p>The following specifications shall be complied with:</p> <ul style="list-style-type: none"> a) Any parts of the existing wharf that require removal must be completely removed from Waterways Authority land. All piles and piers involved are to be completely withdrawn from the bed of the Spring Cove and not cut off. In accordance with condition 41), where such works require excavation or disturbance of the seabed a separate application and approval under Part 5 of the Environmental Planning and Assessment Act 1979 will be required; and b) All work is to be done in such a way that no construction or demolition debris etc falls, flows or is carried to the bed or waters of the Spring Cove and any such material entering the Cove is to be removed immediately <p><i>Note: Waterways Authority is now Transport for NSW.</i></p>	No works were undertaken to the wharf during the reporting period.	Not triggered
3	<p>Prior to commencement of use of the wharf, the following works must be undertaken to the satisfaction of the Waterways Authority:</p> <ul style="list-style-type: none"> a) Installation of lifebuoys and ladders on the wharf; b) The top ½ metre of the mooring/fender piles shall be painted and kept painted white: all other elements of the facility shall be left 	No works were undertaken to the wharf during the reporting period.	Not triggered

Condition Number	Condition	Comments	Compliance Status
	unpainted or, if painting is required, be painted in a mid grey colour with matt finish; and		
	c) Installation of signage indicating that the wharf is for use by the public ferry service only and is not available for private access or mooring.		

SCHEDULE 5

LONG-NOSED BANDICOOTS – MONITORING REQUIREMENTS (CONDITION 167)

The co-proponents shall undertake the following monitoring program

1. The co-proponents will negotiate with the DEC an annual contribution to assist the on-going implementation of any monitoring programs established as part of the Long-nosed Bandicoot Recovery Plan (once adopted). The contribution will be adjusted annually to reflect changes in the CPI.
2. The following specific elements shall also be monitored by the co-proponents

Element	Timing	Methods	Responsibility (NPWS, North Head Sydney, or Joint)	Comments	Compliance Status
Bandicoot activity and use of foraging habitat	To commence within one month of the commencement date	Monitoring will be undertaken using spotlight transects and surveys of Long-nosed Bandicoot diggings on a three monthly basis and will compare areas generally unaffected by the proposal (control areas) with areas potentially affected by the proposal (either by construction activities or visitors).	NPWS	NPWS replaced bandicoot foraging activity monitoring with bandicoot cage-trapping. Bandicoot cage-trapping monitoring was undertaken in May 2022. NPWS will seek to amend the monitoring methodology and lodge a modification to the Planning conditions in 2023.	Non-Compliant
Any enhanced, reconstructed or rehabilitated habitat established in accordance with condition 165)	To commence within one month of the works being completed	See above, but also to include identification of what use bandicoots are making of the enhanced habitat areas, i.e. foraging, shelter, nesting.	NPWS	No habitat enhancement works were undertaken during the reporting.	Not Triggered

Element	Timing	Methods	Responsibility (NPWS, North Head Sydney, or Joint)	Comments	Compliance Status
Deaths of Long-nosed Bandicoots attributable to vehicles. Road-deaths are taken to include any bandicoot remains identified on or next to roads	To begin within one month of the commencement date and to occur for the duration of the approval.	<p>Road-death monitoring shall be conducted by an appropriately trained and licensed person on a daily basis, within two hours of sunrise and is to be undertaken by driving set routes at slow speeds.</p> <ul style="list-style-type: none"> monitored roads are to include all public roads within Sydney Harbour National Park i.e. Blue Fish Road, Collins Beach Road, North Head Scenic Drive from the Parkhill Archway to the North Head look out, and the internal roads with the Quarantine Station. road deaths are to be recorded on a publicly accessible mortality register, noting basic morphological details (age, sex and condition), the date, the name of the recorder, microchip number of the animal (if present) and the location plotted using a GIS-based map (see also conditions 169A and 66). For the 	NHS	<p>Q-Station staff are on site 24/7 and conduct monitoring as part of routine operations.</p> <p>Road deaths are recorded on a mortality register and a road mortality sign is clearly visible to the public after stone entrance to North Head National Park. The sign includes a 24 hour phone number to allow members of the public to inform the lessor of any mortalities and what to do if an injured bandicoot is found.</p>	Compliant

Element	Timing	Methods	Responsibility (NPWS, North Head Sydney, or Joint)	Comments	Compliance Status
		<p>purposes of road mortality monitoring an adult Long-nosed Bandicoot is defined as: female – 450 grams or heavier; male –heavier than 650 grams.</p> <ul style="list-style-type: none"> opportunities are to exist for the public to provide notification of road deaths that can be verified by a dead specimen or adequate photographic evidence. <p>where the cause of death or the age of the individual cannot be determined at the time of notification, the remains are to be collected and stored and a necropsy undertaken as soon as possible. Costs of the verification process shall be met by the co-proponents.</p>			

SCHEDULE 6

LONG-NOSED BANDICOOTS: ADAPTIVE MANAGEMENT – ROAD MORTALITIES (CONDITION 169)

Trigger	Trigger mechanisms	Responsibility (NPWS, North Head Sydney or Joint)	Comments	Compliance Status
Boundary of road mortality monitoring	For the purposes of applying the following trigger mechanisms, Long-nosed Bandicoot road mortalities are those adult mortalities recorded in accordance with the methods specified in Schedule 5 but only for internal roads of the Quarantine Station.	Joint	Noted, schedule 6 triggers have been applied to internal roads of Quarantine Station only.	Compliant
Trigger 1	If the level of private vehicle traffic generated by the proposal increases 10% above the projected levels measures shall be introduced to reduce traffic volumes to below these levels and as close as possible to the original projections. Trigger 1 will apply regardless of whether the following triggers have been reached and visa versa (e.g. Trigger 2 could occur first, with Trigger 1 occurring at a later stage).	NHS	<p>Private vehicle traffic has not increased as such vehicles are not allowed on site.</p> <p>A boom gate operates by Q Station reception staff to limit private vehicle access.</p>	Not Triggered
Trigger 2	<p>If in any six-month period there are 2 recorded adult road mortalities above the background level then the co-proponents must implement the following measures, unless otherwise agreed by the DEC:</p> <p>(a) seek approval from the relevant authorities (including Council if necessary) to install additional traffic calming devices and signage at appropriate locations within or outside of the site as informed by the mortality</p>	Joint	One bandicoot mortality was recorded during the reporting year which is below the threshold.	Not Triggered

Trigger	Trigger mechanisms	Responsibility (NPWS, North Head Sydney or Joint)	Comments	Compliance Status
	<p>register (Schedule 5) and GIS (Condition 66);</p> <p>(b) investigate the feasibility of providing road-side fencing to create defined road-crossing points for Long-nosed Bandicoots, particularly using the existing traffic calming devices; and</p> <p>(c) reduce the frequency and alter the timing of functions, conferences and activities (e.g. scheduling finishing times of activities to minimise traffic leaving or arriving at the site after sunset). With the exception of any additional traffic calming devices, fencing and signage, the measures may be reversed with approval from the DEC if adult road deaths return to less than 2 above the background level for six consecutive months.</p>			
Trigger 3	<p>If the measures in Trigger 2 above have been applied and adult road mortalities continue to exceed 2 deaths above the background level for a further six months then the co-proponents shall also implement the following measures, unless otherwise agreed by the DEC:</p> <p>(a) implement a sunset-to-sunrise curfew for overnight guest and day visitor private vehicles arriving at or leaving the site (including CP1 if at least half the mortalities have occurred outside of the site). During the curfew:</p> <ul style="list-style-type: none"> ○ buses and coaches may continue to access the site in 	Joint	Trigger 2 was not triggered this reporting year	Not Triggered

Trigger	Trigger mechanisms	Responsibility (NPWS, North Head Sydney or Joint)	Comments	Compliance Status
	<p>accordance with conditions 150) and 151);</p> <ul style="list-style-type: none"> ○ the shuttle bus may continue to run from CPI to areas within the site; and ○ staff may continue to access and park in CP5 at all times; <p>(b) provide a night shuttle bus service between Manly and the site (or some other means of public transport); and</p> <p>(c) implement measures identified in the assessment of habitat reconstruction and rehabilitation options (condition 165) that have not already been undertaken.</p> <p>The curfew must be implemented within 2 weeks of the six month mortality information becoming available. The curfew may be lifted and the shuttle bus service concluded with approval from the DEC once adult road mortalities return to less than 2 above the background level for six consecutive months.</p>			
Trigger 4	<p>If the measures in Trigger 3 above have been applied and adult road mortalities continue to exceed 2 deaths above the background level for a further six months then the co-proponents shall also implement the following measures, unless otherwise agreed by the DEC:</p> <ul style="list-style-type: none"> • implement a total day and night ban on all guest and visitor private vehicles entering the site (including CP1 if at least half the mortalities 	Joint	Not triggered this reporting year.	Not Triggered

Trigger	Trigger mechanisms	Responsibility (NPWS, North Head Sydney or Joint)	Comments	Compliance Status
	<p>have occurred outside the site).</p> <p>During the ban:</p> <ul style="list-style-type: none"> ○ buses and coaches may continue to access the site in accordance with conditions 150) and 151); ○ the shuttle bus may continue to run from CPI to areas within the site; and ○ if at least half the mortalities have occurred inside the site, staff may only park in CP1 (with no restrictions on timing) otherwise staff may continue to access and park in CP5 at all times; and <ul style="list-style-type: none"> • provide a day and night shuttle bus service between Manly and the site (or some other means of public transport). <p>The ban must be implemented within 4 weeks of the six month mortality information becoming available. The ban and associated restrictions may be lifted with approval from the DEC once adult road mortalities return to less than 2 above the background level for 12 consecutive months.</p>			
Trigger 5 – potentially catastrophic events	If there are 10 adult road mortalities or more in any one month period or 15 or more in any consecutive three-month period, then all the measures identified in Triggers 2, 3 and 4 shall be implemented, unless otherwise agreed by the DEC. Where these are inconsistent, the more	Joint	Not triggered this reporting year	Not Triggered

Trigger	Trigger mechanisms	Responsibility (NPWS, North Head Sydney or Joint)	Comments	Compliance Status
	<p>restrictive of the measures is to apply).</p> <p>The measures must be implemented within 2 weeks of the mortality information becoming available. The measures may only be reversed with approval from the DEC if adult road mortalities are less than the background level for 12 consecutive months.</p>			

SCHEDULE 7

LONG-NOSED BANDICOOTS – CALCULATING THE BACKGROUND ADULT ROAD MORTALITY LEVEL (CONDITION 170)

The following process shall be followed to enable the existing non-comprehensive monitoring information to be phased out and replaced by the new monitoring information. However, if the provisions of conditions 172) and 173) are enacted then they shall prevail over the following process

Process

- The revised background adult road mortality level is to be established by calculating a weighted average of the pre-commencement adult road mortalities (ie, the existing 10 per six months) with post-commencement recorded adult road mortalities, on the following basis:
- For the second year after the commencement date, the background level = 75% of 10 deaths plus 25% of the average six-monthly post-approval deaths (ie, adult road mortalities recorded during the first year after the commencement date);
- For the third year after the commencement date, the background level = 50% of 10 deaths plus 50% of the average six monthly post-approval deaths (ie. Adult road mortalities recorded in the two years after the commencement date);
- For the fourth year after the commencement date, the background level = 25% of 10 deaths plus 75% of the average six monthly post-approval deaths (ie. Adult road mortalities recorded in the three years after the commencement date); and
- For the fifth year after the commencement date the background level = the average six monthly post-approval deaths as recorded during the four years since the commencement date. This background level will be applied for the remainder for the life of the activity.

SCHEDULE 8

LITTLE PENGUINS: ADAPTIVE MANAGEMENT (CONDITION 179)

Trigger	Trigger Mechanism	Responsibility (NPWS, North Head Sydney, Joint)	Comments	Compliance Status
Trigger 1	<p>1) If monitoring indicates that the number of active Little Penguin breeding burrows between Cannae Point and the southern end of Store Beach has significantly decreased over two successive breeding seasons (July to February inclusive), and the DEC is satisfied that such decreases are either fully or partially related to the activity, the DEC may direct the co-proponents to implement appropriate measures. The measures may include, but not be limited to:</p> <p>(a) a reduction in the number of lights and their intensity in the Wharf Precinct, particularly in the vicinity of the restaurant in A6;</p> <p>(b) the provision of acoustic barriers in the vicinity of the restaurant at night, especially the outdoor eating area;</p>	NPWS	<p>The Manly Little Penguin Recovery Program monitoring (2021/2022) recorded a decrease in Little Penguin breeding burrows between Cannae Point and the southern end of Store Beach.</p> <p>The Manly Little Penguin Recovery Program monitoring (2022/2023) recorded additional nests between store point and quarantine beach.</p> <p>The Manly little Penguin Recovery Program (2021/22) recorded a reduction in breeding population in Manly. The population has not recovered from extensive losses to the breeding population from the fox incursion in 2015 pre-breeding season. The now low level of the population means there is little buffer against other impacts such as changes in oceanic conditions, which could impact individual breeding seasons or the long-term population.</p> <p>NPWS is not satisfied that the decrease is fully or partially related the activity.</p> <p>No directions were made by NPWS to implement further monitoring measures during the reporting period.</p>	Not Triggered

- (c) cessation of outdoor dining in the vicinity of the restaurant in A6 at night during the breeding season (or all year round);
- (d) restrictions on ferry movements, such as a set period either side of sunset or no movements between sunset and sunrise; and
- (e) the provision of alternative public transport to the site during times when ferry movements are restricted.

If further on-going monitoring indicates that the number of active Little Penguin breeding burrows in this area continues to decrease over subsequent breeding seasons, the DEC may direct the co-proponents to implement further measures.

2) The co-proponents shall comply with any directions issued by the DEC in accordance with clause 1. Any measures required to be implemented may be reversed or altered with the approval of the DEC if monitoring indicates that the

As part of NPWS' discussions with Planning NSW about the non-compliance and official cautions, NPWS has committed to an additional investment in little penguin protection across Sydney Harbour's habitat locations, including Quarantine Station and Store Beach.

NPWS is currently updating AOBV signage for visitors regarding little penguin protection regulations.

	<p>number of active Little Penguin breeding burrows for the population has increased over two successive breeding seasons.</p> <p>3) If Little Penguin deaths occur in the vicinity of the site as a result of matters reasonably beyond the control of the co-proponents (such as predator attacks, oil spills, etc), the number of active breeding burrows considered for the purposes of clause 1 may be adjusted in consultation with the DEC to account for such impacts (e.g. to account for the likely impact of predator related deaths on lowering the number of active burrows).</p>			
Trigger 2 – potentially catastrophic events	<p>1) If information becomes available that indicates a significant reduction in the size of the Little Penguin population or a significant change to the behaviour of the population within a period of less than two successive breeding seasons, and the DEC is satisfied that the activity is likely to have contributed to that decline or change, the DEC may direct the co-proponents to</p>	NPWS	<p>No directions were made by NPWS to implement further monitoring measures during the reporting period. NPWS is not satisfied that the decrease is fully or partially related the activity.</p>	Not Triggered

implement appropriate measures. These may include, but are not limited to, the measures specified in Trigger 1.

2) The co-proponents shall comply with any directions issued by the DEC under clause 1. Any measures required to be implemented may be reversed or altered with the approval of the DEC.

SCHEDULE 9

ENVIRONMENTAL MANAGEMENT PLAN (CONDITION 191)

The EMP shall include the following matters:

- (a) a clear statement of the objectives of the EMP;
- (b) a brief description of the management and the planning framework;
- (c) identification of the statutory and other obligations which the co-proponents must comply with during the undertaking of the activity;
- (d) definition of the roles and responsibilities regarding implementation of the EMP and its various components;
- (e) contact protocols outlining procedures and any notifications to be given before works commence, together with contact details for the relevant project manager;
- (f) induction and training arrangements for contractors and staff;
- (g) community liaison arrangements;
- (h) mapping of key environmental features and proposed environmental safeguards, to include:
 - o topographic features
 - o vegetation cover and threatened species locations/habitat
 - o special items or areas of environmental or heritage sensitivity
 - o suitable locations for construction infrastructure (e.g. machinery and material storage), access ways for vehicles and proposed active work sites
 - o location of sedimentation and erosion controls.

The mapped information should be capable of being incorporated into the GIS system for the site once this is approved and functioning (condition 66).

- (i) specific objectives and strategies for the main environmental management elements. This should, at a minimum, identify what the issue is, compliance and best practice requirements, the action required, who will undertake the action and when. The main elements must include, but are not limited to:
 - o historic heritage
 - o Aboriginal heritage
 - o visitor management, access and traffic
 - o flora and fauna
 - o water quality and hydrological regimes
 - o noise and air quality management
 - o geotechnical issues
 - o erosion and sedimentation
 - o contamination
 - o waste management

- landscaping and rehabilitation
- weed and predator controls
- fire management
- visual issues
- hazards and risks, including measures to ensure public safety during the undertaking of construction and renovation activities (such as temporary fencing)
- energy and resource use and recycling.
- monitoring, inspection and reporting arrangements, including performance criteria, protocols (e.g.: frequency and location) and procedures to follow

6.2 Appendix B – Compliance Report Declaration Form

Compliance Report Declaration Form

Project Name North Head Quarantine Station Conservation and Adaptive re-use

Project Application Number: MP08_0041 and MP08_0041 MOD3

Description of Project: Construction and operation of a tourist facility “Q Station”, accommodating for conferences, weddings, school tours and overnight stays.

Project Address: North Head, Manly

Proponent: National Parks and Wildlife Service and North Head Sydney Pty Ltd

Title of Compliance Report: Annual Environmental Report – Quarantine Station North Head (MP08_0041): January 2022 to December 2022

Date

I declare that I have reviewed relevant evidence and prepared the contents of the attached Compliance Report and to the best of my knowledge:

- the Compliance Report has been prepared in accordance with all relevant conditions of consent;
- the Compliance Report has been prepared in accordance with the Compliance Reporting Post Approval Requirements;
- the findings of the Compliance Report are reported truthfully, accurately and completely;
- due diligence and professional judgement have been exercised in preparing the Compliance Report; and
- the Compliance Report is an accurate summary of the compliance status of the development.

Notes:

- Under section 10.6 of the Environmental Planning and Assessment Act 1979 a person must not include false or misleading information (or provide information for inclusion in) a report of monitoring data or an audit report produced to the Minister in connection with an audit if the person knows that the information is false or misleading in a material respect. The proponent of an approved project must not fail to include information in (or provide information for inclusion in) a report of monitoring data or an audit report produced to the Minister in connection with an audit if the person knows that the information is materially relevant to the monitoring or audit. The maximum penalty is, in the case of a corporation, \$1 million and for an individual, \$250,000; and
- The Crimes Act 1900 contains other offences relating to false and misleading information: section 307B (giving false or misleading information – maximum penalty 2 years’ imprisonment or 200 penalty units, or both).

ACKNOWLEDGMENT OF COUNTRY

North Head Sydney Pty Ltd acknowledges the traditional custodians of the land on which the Quarantine Station is situated and the waterway adjoining the site and pays its respects to the elders past, present and emerging.

EXECUTIVE SUMMARY

North Head Sydney Pty Ltd present its first monitoring report for the Quarantine Station North Head Manly [QS] for the year 2022 as required by the conditions of approval [CofPA] of the consolidated consent [MP08_0041] as modified by [MP_0041-Mod-3 – 25/05/2018]

Condition 219 states

As part of the annual environmental report (condition 221) and comprehensive audit (condition 226), the co-proponents shall produce a monitoring report outlining results from the integrated monitoring program. The report shall:

- (a) include an analysis of monitoring results and trends collected over time; and
- (b) identify measures taken or proposed to be undertaken to respond to any adverse or unexpected impacts identified.

The lessee and operator of the QS until 11th May 2022 was Mawland Quarantine Station Pty Ltd. The lease by agreement dated 11th May 2022 was assigned to North Head Sydney Pty Ltd as trustee for the North Head Sydney Trust [NHS]. By virtue of the assignment NHS became the lessee of the site and the operator of the QS and the activities conducted at the QS.

NHS's vision for the Quarantine Station is to develop an iconic destination that is emblematic of a New Australia: where past meets future, the oceans meets the land and where a dynamic multicultural and indigenous history connects.

This report will cover, visitor access information, the interpretative program, aboriginal heritage, non- aboriginal heritage, flora and fauna, seagrasses, soil and erosion, noise, stormwater management, infrastructure, waste management and staff and contractor training.

C of PA 216 requires an integrated monitoring program for the activity.

The 2020 Annual Environment Report at condition 216 stated:

An Integrated Monitoring and Adaptive Management System (IMAMS) programme was developed in 2006 and operated until 2020. A review was requested by DPIE. The replacement monitoring system has not yet been approved for use by the DPIE.

The independent auditor in the 2018 – 2021 comprehensive audit for the North Head Quarantine Station at page 108 stated:

An integrated Monitoring Program had not been implemented for the Q Station during the audit period. Develop and implement an Integrated Monitoring Program in accordance with the requirement of C of A 216.

NHS developed a 2022 Integrated Monitoring and Adaptive Management Program which was submitted to DPE on 19 December 2022 for approval. The program has not, at the time of preparation of this monitoring report, been approved.

NHS has responsibility to monitor the conditions of approval other than Aboriginal Heritage, Soil and Erosion and Threatened Species, which are monitored by NPWS.

NHS and NPWS have joint responsibility to monitor the Moveable Heritage and Resource Collection, bandicoot deaths and numbers on site, feral animals on site, flora dieback and weed coverage

VISITOR ACCESS INFORMATION

VISITOR NUMBERS

The optimum visitor capacity is 315 people (including staff) at any one time.

The CofA 120(A) provides that the co-proponents must not hold more than 450 people on site until the Site Travel and Access Plan has been approved by the Secretary. The plan was approved on 14/9/2018.

The number of visitors on site at any one time of a day fluctuates depending on the activities for the day. The peak periods are considered to be 12pm, 4pm and 8pm as these are the times Q Station hosts activities such as large conferences, weddings, tours and events. Peak capacity will be reached if attendance at these activities coincides with high occupancy in hotel rooms. However, most of the time, many of the overnight guests have attended one of the activities which assists in moderating the visitor capacity.

In 2022 there were 55 weddings; 107 private events, lunches and other functions; 320 conferences and 78 educational tours.

To assess visitor numbers NHS has selected 14 days throughout the year to audit visitor numbers by extracting data from all booking programmes for each of the activities on site. The dates selected is set out in the following table.

	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
	low	high	high	low	high	low	low	low	high	high	high	high
MON		14th								24th		
TUE			22th						13th			
WED					18th						9th	
THU		24th										8th
FRI			11th						16th			
SAT					14th							31th
SUN										9th	20th	

The method used for the audit is set out in the following table.

TIMES	VISITOR/GUEST	SYSTEM	METHOD
12pm	Guests Inhouse	Protel	In house minus arrivals =midday guests
	Conference Attendees	Ivvy	Ivvy Conf Delegate
	Staff on shift	HumanForce	Roster Totals
	QW Tour (11am)	Fareharbor	Tour numbers
	Lunch BH (Weekends)	ResDairy	Diners exluding - 'inhouse'
4pm	Guests Inhouse	Protel	Inhouse Total
	Conference Attendees	Ivvy	Ivvy Conf Delegate
	Staff on shift	HumanForce	Roster Totals
	Wedding (weekends)	Ivvy	Wedding Guests
8pm	Guests Inhouse	Protel	Inhouse Total
	Conference Attendees	Ivvy	Ivvy Conf Delegate minues Res Conf = Totals
	Staff on shift	HumanForce	Roster Totals
	Dinner BH	ResDairy	Diners exluding - 'inhouse'
	Wedding (weekends)	Ivvy	Wedding Guests
	G Tours	Fareharbor	Tour numbers

From these programs NHS captured all visitors who attend the site via a restaurant reservation, a conference, a wedding, a tour, overnight guest or employment

The following graph details the number of visitors on site on the selected days and at the selected times. The data assumes that 100% of overnight guests are on site at the time of reporting, despite this being unlikely as many of the guests frequent Manly and surrounds during their stay at Q.

The detailed visitor sample is attached to this report

MODE OF ACCESS FOR VISITORS TO THE SITE

The various modes of access to the site are:

Public Bus service

TforNSW operates a 'loop' bus service from Manly Wharf to North Head in the Sydney Harbour National Park. The service stops at the QS on the way to North Head and on its return to Manly Wharf.

Shuttle Bus

The Shuttle Bus, operated by NHS, provides a regular service for guests to and from Manly. The shuttle bus is popular with hotel guests who have arrived at the site by other means of transport and want to spend time in Manly.

Taxis and / or Uber

The staff in Reception often notice visitors arriving at or leaving the site by these means of transport. Staff is regularly requested by visitors to call for a taxi or uber.

Chartered Bus

Tour groups, especially school tour groups, arrive by chartered bus which do not enter the site. Wedding planners are encouraged to make use of chartered bus.

Walking or Bicycle riding

The site is popular with local residents and others who walk / ride to the site and use the roads and paths for exercise / bicycling or just to view the site and the vista.

Water Access

There has been increase in the number of visitors accessing the site by kayak or private boat. The charter company 'My Sydney Boat' provides a service for its customers to visit the site.

Arrival by boat

arrival by kayaks

arrival by yachts

Ferry Service

A ferry service, operated by Fantasea Sydney Harbour Sightseeing Hopper, called at the Quarantine Station until the onset of covid-19 and the first lock down. Fantasea is experiencing a shortage of crew which is preventing it operating its harbour hopper service to Manly. Once resumed Fantasea will include an on-demand stop at the Quarantine Station.

Private Vehicle

The number of visitors to the site arriving by private motor vehicle is only 36% of visitors – see following survey. Neither CP5 nor North Head were used during the reporting period for overflow parking.

SURVEY OF VISITORS ENTERING THE SITE

A survey was recently undertaken on 3 busy summer days. The survey was taken during school holidays and on days with no conferences or education tours. The days chosen were considered to be the day most likely to have the highest number of visitors arriving by private vehicle,

The result of the survey is set out in the following table:

	Mode	Vehicles/Passenger	8am-10am	10am-12pm	12pm-2pm	2pm-4pm	4pm - 6pm	TOTAL	% of total Average
3 DAY AVERAGE	Private Car	Vehicles (includes cars parking & not entering Q)	33	25	26	22	15	122	
		Passengers	40	44	40	38	20	181	36%
	Taxi and Uber	Vehicles	1	1	3	2	3	11	
		Passengers	2	1	4	5	5	18	4%
	Walking/ Cycling	Passengers	15	33	41	35	15	139	28%
	Q Shuttle Bus	Passengers						104	7%
	Public Bus service	Passengers	0	1	1	1	1	4	1%
	Chartered bus	Passengers	0	0	0	0	0	0	0%
	Private Boat	Vessels	8	5	5	2	2	22	
		Passengers	20	14	19	8	6	68	13%
	Kayak	Vehicles	11	15	16	5	2	49	
		Passengers	15	22	19	6	3	65	12%
	Charter boat	Vessels	0	0	0	0	0	0	
		Passengers	0	0	0	0	0	0	0%
	Ferry	Vessels	0	0	0	0	0	0	
		Passengers	0	0	0	0	0	0	0%

The survey identified 36% of visitors arrived by private vehicle; 4% by taxi / uber; 28% either walked or cycled onto the site; 7% by Q Station shuttle bus; 1% by public transport; 13% by private boat and 12% by kayak.

Survey forms completed at the time of the survey are attached to this monitoring report.

Visitors arriving by shuttle bus was not included in the survey as these numbers are captured by the shuttle bus drivers and reported at the end of each day.

VISITOR IMPACTS ON SITE VALUES

During the reporting season there was nearly 100,000 visitors to the site. The impact of that number of visitors on the conservation and heritage values of the site was minimal.

There has been no measurable damage, caused by visitors to the site, to the fabric of the site, the heritage buildings both interior and exterior and the historical displays.

Further there has been no measurable damage, caused by visitors to the site, to the fauna and flora of the site.

Private vehicles, [other than deliveries, guests staying in the cottages, staff, management, NPWS and vehicles carrying disabled persons] are not allowed on site.

INTERPRETIVE PROGRAM

Tours being the Ghostly Encounters, Ghost Trackers, Q Station Paranormal Investigation, Quarantine Wander History Tours and the Q Station Wildlife Encounters Tour were held during the reporting period and were well patronised. There were 78 education bookings during the reporting period with an attendance of 4352. The Stage 5 Site Study, Migration perspectives remains the most popular education program with the greatest number of students attending

Tour type	Visitors attended in 2022
Ghost tours	14381
History tours	6011
Education Programs	4352
Other- includes Wildlife Explorer and open day tours	448
TOTAL	25 192

		
Stage 6 education program- Death, Disease and Division	Quarantine Wander	Ghost Trackers
		
Quarantine Wander	Stage 2 education program- Mindful Explorers	School group in the wharf precinct

An **Art Exhibition** was held this year in conjunction with the September open day. The work displayed is by students for St. Leo's College in Wahroonga and St. Edwards College in East Gosford. The students are inspired by a range of themes including the architecture of the buildings, historical significance of the site, the natural landscape, the human story and the artifacts. The students produce the work in lino printing, oil painting, pencil drawing, digital photography and a mixed media collage.

Successful **Open days** were held on 5th June 2022 and 25th September 2022. Reports are attached to this monitoring report.

Refreshed interpretative signage was installed on site at Funicular stairs, autoclaves, wharf precinct, main accommodation and Asiatic area.

Impact of the interpretive program

1100 reviews were received from visitors to the site. Some of the following reviews reveal the success of the interpretive program:

Location is a key review type. Our visitors love the national park, its harbourside location with abundant wildlife, grounds to explore and being surrounded by history. *"The location and view are spectacular. The history of the site is interesting"*, also *"Iconic views of Sydney combined with an historical experience"*, and *"I love the fact that you have wildlife and you take care of them"*, and yet another, *"We loved that we could wander the lovely grounds and explore a place with so much important history."*

The acknowledgement of **continued use and restoration of buildings** is noted in many reviews. *"This former quarantine station retains its original architecture: rooms opening onto the long-shared verandas, wooden buildings. It's a most comfortable place to stay, views or glimpses of the harbour, plenty of places to sit and drink it all in"*, and *"basic accommodation which we expected as they are original buildings"*. Whilst another reviewer notes *"interesting history and well-preserved buildings"*.

Other visitors *"loved the authentic and original buildings and their contents"*, or *"The history of the place is also wonderful and it is great to see that this is still kept in place"*, and *"the heritage being maintained is fantastic."*

Reflection about the **site's history as a former Quarantine Station** is also highlighted as a positive element of visitors' experience in the reviews. *"We enjoyed the unique experience of staying on a historical site and learning about the past in this location"* and another advocates the ability to *"walk throughout the site and explore the historic buildings and visit the wharf to get the story behind its original use"*. Another *"Loved the history the site provides"*.

The direct **interpretation of the museum, history and ghost tours** get many positive reviews. Comments about the Quarantine Exhibition include *"museums were fascinating"*, *"loved the museum on the wharf"* and *"extremely well presented historical information"*. *"We enjoyed the afternoon of our arrival going through the museum in the kiosk, which we found most informative"*

The **history tours** are also included favourably. *"We also did a history tour this time which was great!"*, and *"We booked a walking tour which was exceptional and great value"* Specific staff have also been mentioned in the engagement and delivery of the tours. *"The 11am tour with Martin was informative. He is a passionate and knowledgeable guide"* Another commented *"Fully enjoyed our history tour with Brandon- could've kidnapped him to continue learning and asking questions all day"*.

Information about the site was also learnt through ghost tours *"the ghost tour was very informative"* and *"A ghost tour was an excellent way to engage the teenagers and kids in the history of the site."* *"Chris the tour organiser made the experience spooky but entertaining"*. *"Simon on the ghostly tour was engaging. It was overall a fantastic experience"*

One visitor who stayed at the end of October wrote an extensive review which beautifully captures much of the displayed sentiment from our visitors and describes in his opinion the uniqueness and significance of Q Station.

From the moment of our arrival, right through our stay and until our departure, we were greeted with such friendly, courteous and helpful folks who all seemed to enjoy their roles so much (and there was a lot of laughter) that we felt very welcome and even pampered...a lot Okay... I may have mentioned that it was our 30th wedding anniversary, but no kidding everything about this place and the experience we had made this a most enjoyable and memorable stay. Without doubt we will certainly be back again and would definitely recommend a stay here to anyone looking for something special. It's worth noting that my wife had formally been employed in hotel management quite a few years ago and as such we have been privileged to stay in quite a few hotels and resorts around Australia and overseas. But what makes Q Station so unique and special is beautiful tranquil location, the warm and welcoming people that work there, the historical significance and the physical and spiritual connection with the past for all walks of people, both the early settlers and the original people of this land. The management must be commended for their total commitment to preserving this beautiful historical site whilst providing a very relaxing holiday and most enjoyable stay. If you're looking for the five star stay of the downtown Ritz Carlton with everything that a button can push, Q Station may not be entirely for you. However if you are really looking for that something different that is most comfortable with very comfortable rooms with all the luxuries, fantastic views, great people, great food and so much to see and do, well Q Station is definitely entirely the place for you. We enjoyed the beautiful walks, kicking back on our verandah with a wine and taking in the views, walking around all the buildings and learning about the history and even taking advantage of our on call free shuttle service down to Manly with our very personal driver Arthur (Very funny Guy) So a very special thank you to Rebecca and her fabulous team and Rita for looking after us so well. Thanks Q Station... Great job...Great Place

ABORIGINAL HERITAGE

A 'Back to Country' event was held on the site in June 2022

There was a smoking ceremony at the September open day.

NHS engaged with the indigenous stakeholders [including a Dennis Foley who has knowledge of the site] to locate the natural spring within the site and to learn how to best respect the indigenous heritage of the site moving forward with NHS's vision.

NHS has contracted with Dr. Ashlea Zivanovic of Garigal Nursery to contract grow 1000 native wildflower tube stock for planting out into the existing gardens beds around the Q Station accommodation and reception buildings. Formal proposal from Dr. Zivanovic is attached to this monitoring report.

NHS has engaged <http://www.ambs.com.au/index.html> for its consultancy service to provide a report on indigenous values for attachment with any application to Heritage Council.

NON – ABORIGINAL HERITAGE

NHS has commissioned a licenced builder as its consultant to visually inspect the features listed in the IMAM program. Apart from the following maintenance work there was no other conservation work during the reporting period.

During the reporting maintenance work was undertaken with the approval of NPWS and the Heritage Office [where necessary] to preserve the heritage and conservation of the site. The work included:

- removal of debris from the stormwater system
- replacement of sewerage pump
- removal of the fallen tree in the Little Penguin protected area
- removal of the brush turkey mound in the Little Penguin protected area
- fixing aluminium stair nosing to each step in the funicular stair way
- minor repair and maintenance of the stairs, balustrades and verandah
- interior painting of P27 building
- floor sanding in P27 building
- coating of the floor in P27 with a clear poly/ oil finish
- make good damage to site resulting from damage caused by rainstorms in March 2022
- replacement of asphalt on Cottage Road
- repair of a leak in a water main

Expenditure on conservation works since the transfer of the lease of the site to North Head Sydney Pty Ltd on 11th May 2022 was \$269,947.00 including GST

The Fire Control Systems inbuilt across the site are monitored and tested monthly by Celsius Fire Safety according to Australia Fire Standards and the Building Code of Australia.

Flick Pest Control inspect the buildings, each month, to ensure that there is no termite activity or dry rot in the buildings and the recommend remedial action in the event of discovery of termite activity or termite damage or dry rot.

Inscriptions and Engravings

During the reporting period regular ground maintenance work such as clearing of drains within the wharf precinct and cutting of grass that obscures inscriptions was undertaken. The Wharf Precinct (Thorp SC1-SCIV) inscriptions remain the focus of monitoring due to their cultural and historical significance.

NHS is negotiating with International Conservation Services for a scope of works to assess the monitoring and maintenance policy for the inscriptions to then inform the updating of the Inscriptions Plan 2007 with the approval of the Heritage Council, this will ensure best conservation practise is implemented in the care and restoration of the inscriptions to ensure that there quality is kept for the future.

Moveable Heritage and the Resource Collection

The Quarantine Station Moveable Heritage Plan 2021 identified key recommendations for prioritising work on the collection. The greatest need was identified as completing an audit on the collection; the individual items and their location; and then updating the collection management system, Ehive.

Ehive is a web-based collection management system developed by Vernon Systems Ltd. Released in 2008, eHive is the product of extensive research and consultation with the culture and heritage sector. The system was originally designed to meet the collection management needs of smaller organisations and individuals, and to provide a viable avenue for online publishing. These days a growing number of larger institutions using other collection management systems have chosen to also use eHive as a platform for publishing their collections online.

The Quarantine Station Ehive database contains 2673 object record. The number of items in the Quarantine Station Moveable Heritage collection is different due to multiples of many items, duplicate and incomplete records

A volunteer program is being established with the aim of completing an audit of the items in the collection which are located in many of the buildings at the Quarantine Station and establishing a more comprehensive Ehive database which accurately reflects the Moveable Heritage collection.

FAUNA

There was one death of a long-nose Bandicoot within the leased area during the reporting period.

There was also the death of an Echidna within the leased area during the reporting period.

The number of Brush or Scrub Turkeys has increased and are continuing to cause damage and distress across the site. Food outlets have a constant battle to ensure that guests are not having food taken. Guest and conference rooms are targets for then turkeys leaving their own mess.

FLORA

During the reporting period NHS undertook the extra planting of sunshine wattle.

NHS has contracted with Dr. Ashlea Zivanovic of Garigal Nursery to contract grow 1000 native wildflower tube stock for planting out into the existing gardens beds around the Q Station accommodation and reception buildings. Formal proposal from Dr. Zivanovic is attached to this monitoring report.

Vegetation Encroachment under the power lines has been trimmed.

There has been no construction activity during the reporting period impacting on flora or fauna.

The number of rabbits is controlled by NPWS. The number of rabbits on site has grown tremendously during the reporting period.

Native revegetation, maintaining fuel load at a save level and the weed coverage is undertaken by contracted groundsman.

SEAGRASS

NHS has commissioned Paul Anink, a marine ecologist, from Marine Pollution Research Pty Ltd to undertake a monitoring of the seagrass. This will take place in January 2023. The methodology for the monitoring will include drone aerial photography, a hydrographic survey of the seabed and dive seagrass assessments to ground-truth seagrass species, distribution and condition. Fisheries endorsement for this methodology will be sought. Once the initial monitoring has been completed and approved by Fisheries and TfNSW an annual monitoring program / schedule will be provided.

SOIL and EROSION

NHS contractors constantly monitor the site to ensure that there is no soil erosion or that there any potential cause of soil erosion. If discovered then preventive measures are put in place to prevent soil erosion or to make good any erosion.

There was one soil erosion incident recorded during the reporting period. An extremely heavy rainstorm in March 2022 resulted in significant flash flooding resulting in erosion at the beach. NPWS completed remediation work by filling the eroded drainage channel with sand.

NOISE

As there has been no construction on site there has been no complaint, either on site or offsite.

There was no complaint received, either on site or off site, when maintenance work was undertaken throughout the reporting period.

There was no complaint received, either on site or off site, when Cottage Road was, in part, resealed.

Noise emanating from on-site activities has been within the approved limits, with no complaints received from off site or on site.

STORMWATER MAINTENANCE

NHS contractors regularly monitor the features set out in the IMAM program to ensure that the stormwater system is free from any debris, leaves or objects which would prevent the system from functioning properly.

NHS has contracted with a plumber who has prepared a scheduled maintenance program to regularly blow the drains and to put cameras down the drains to ensure tree roots are cleared and any damage repaired to ensure that the stormwater flow through the pipes flows without obstruction.

During the reporting period there were two extremely heavy rainstorms which required inspection of the system to ensure that it was operating properly as flooding occurred in the wharf precinct.

INFRASTRUCTURE

The Quarantine Station is serviced by Sydney Water for the supply of water to the site and the removal of the sewer output. There are two (2) operational sewerage pumps located just above the Wharf Precinct which pumps the sewerage up and into the Sydney Water sewer main. There is a third pump which is a backup pump. The pumps are regularly checked to ensure that they are operational.

The site is connected to the electricity supply to the North Head National Park. Red Energy invoices the Q Station for the electricity used on site.

WASTE MANAGEMENT

Rubbish bins are located throughout the site. These bins are emptied on a regular basis with the rubbish being collected by the contractor. Waste from the hotel rooms, function rooms, conference rooms, café and restaurant is also collected by the contractor.

Wheelie bins are located throughout the site. These bins are exchanged on a daily basis for empty bins. The bins containing rubbish are stored in CP5 ready for collection by licensed contractor, Sydney Waster Services Ltd.

Plastic water bottles are available only in the café and some of the conference rooms.

All visitors, especially tour groups, are instructed that a 'no feeding' policy applies to animals on the site and the use of wheelie bins for disposal of waste.

EMERGENCY and EVACUATION PLAN

All rooms in all buildings on site have an evacuation plan in the rooms.

There are assembly areas in case of evacuation situated at entry to the site [at reception] and outside administration building.

Patrons in the boiler house restaurant and the wharf precinct can evacuate to the beach in the event of fire preventing their exit via the funicular stair way or roadways.

During the reporting period all staff have been fully briefed on the Emergency Preparedness Plan and what is required of them in the case of emergency. The duty managers are the fire wardens, they have been fully trained for the role of fire warden.

The emergency preparedness plan includes, for example, what to do in the case of evacuation; snake bites, serious injury or death on site and first aid.

There has been no emergency during the reporting period requiring an evacuation.

STAFF AND CONTRACTOR TRAINING

During the reporting period all new members of staff have been instructed on the heritage and conservation values of the site and the improvements erected on the site. The training is undertaken by the General Manager, a head of one of the departments and a representative from the human resources consulting company, Human X. The session is of 1-to-2-hour duration.

Intensive refresher training sessions will continue throughout the reporting period.

The same instruction is given to all contractors and consultants who have not previously worked on the site. Contractors must sign in and out whilst on site. If driving on site, driving inductions are delivered by one of the staff at Reception.

Q-Station
Att: Steve Carrodus
1 North Head Scenic Drive
Manly, NSW, 2095

Re: Contract grow of local plants for Q-Station

Dear Steve,

Thank you for speaking with me earlier this month to discuss Garigal Nursery contract growing local native plants for landscaping at Q-station. Please find below my proposal to contract grow $n = 1,000$ native wildflower tubestock for planting out into the existing garden beds around the Q-Station accommodation and reception buildings.

Biodiversity values of Q-Station

Q-Station is situated in a biodiversity hotspot, surrounded by the Critically Endangered *Eastern Suburbs Banksia Scrub*, and the Endangered Sunshine Wattle (*Acacia terminalis subspecies Eastern Sydney*). These biodiversity values make Q-Station a highly desirable place for tourists to visit owing to opportunities to engage with Sydney's unique wildflowers – many of which occur nowhere else in Australia.

There is considerable prospect to increase both the biodiversity and amenity values of Q-Station by planting these wildflowers in the existing garden beds of the accommodation and reception buildings. Example wildflowers that can be contract grown by Garigal Nursery are shown in figure 1. Example locations where these wildflowers can be planted to increase the biodiversity and amenity values of the site are shown in Figure 2.

Red Spider Grevillea
(*Grevillea speciosa*)

False sarsaparilla
(*Hadenbergia sp.*)

Guinea Flower
(*Hibbertia scandens*)

Downy Daisy Bush
(*Olearia tomentosa*)

Grey Spider Grevillea
(*Grevillea buxifolia*)

Flannel Flowers
(*Actinotus helianthi*)

Heath Myrtle
(*Baekea imbricata*)

Mountain Devil
(*Lambertia formosa*)

White Paper Daisy
(*Coronidium elatum*)

Clustered Darwinia
(*Darwinia fascicularis*)

Sweet Scented Wattle
(*Acacia suaveolens*)

Fuschia Heath
(*Epacris longiflora*)

Figure 1: Example wildflowers that would increase the amenity and biodiversity values of garden beds around the Q-Station Accommodation buildings.

Accommodation building

Accommodation building

Accommodation building

Accommodation building

Accommodation building

Accommodation building

Outside breakfast cafe

Reception Building

Figure 2: Example locations where wildflowers could be planted into existing garden beds to increase the amenity and biodiversity values of Q-Station.

Garigal Nursery:

Garigal Nursery specialises in contract growing local provenance plants using propagation material from healthy mother plants growing in similar conditions, proximal to the out-planting site. This means that we will collect cuttings and/or seeds from wildflowers growing at North Head, grow up the seedlings in our nursery in Balgowlah Heights, and provide you with plants that are perfectly suited to the conditions of your site.

We work closely with our contacts at NSW NPWS and NSW DPE to gain the appropriate permissions and/or licences (if required) to undertake collection of propagation material (seeds and/or cuttings) from North Head. Garigal Nursery can also install your plants and carry out post planting care (e.g., watering and weeding) while your plants settle into the landscape at Q-Station.

Proposal & costing:

After inspecting the garden beds adjacent to the accommodation and reception buildings at Q-station, I suggest starting with 1,000 wildflower tubestock to fill in gaps in these garden beds as shown in Figure 2. Supply of local provenance plants is \$5.50 per tube (including GST); therefore pricing is as follows:

Number of tubestock	Price (inc. GST)
$N = 500$	\$2,750
$N = 1,000$	\$5,500
$N = 1,500$	\$8,250

** Please note these are supply prices only and do not include planting of tubestock or post-planting care (e.g., watering, weeding). However we can quote for planting and post-planting care once we determine the quantity of plants you are after.*

Start date & next steps:

Garigal Nursery has immediate availability to commence the proposed contract grow of 1,000 plants for Q-Station. Spring is the optimal time to take cuttings and put down seed. I would personally handle this contract grow as I have considerable experience propagating plant species from North Head and have a keen interest in conserving the biodiversity values of North Head and connecting people with nature.

Thank you for your time in considering this proposal. Please phone me to discuss the proposal at your earliest convenience.

Kind regards,
Dr Ashlea Zivanovic
Co-owner Garigal Nursery

Q Station Community Open Day Review

Sunday 5th June 2022 10-2pm

Overview

The Open Day had a theme of Quarantine Curiosities with the following visitor engagement activities: a new self-guided tour, the Moveable Heritage Store was made accessible for visitors, art workshop by Paper Couture in S5, wharf and hospital heritage buildings open for inspection, stalls, kids' activities, music and BBQ were set up on the Terrace and grass area adjacent.

NPWS event application was submitted and subsequently approved for a group of up to 150pax to attend.

Communication & Marketing prior to event

6 EDMs sent out to F&B, Sunset Sessions database, Education contacts, school contacts and tours.

The opening rates were really good, on average 38% - especially the Sunset Sessions database. Many posts on socials the week prior but most of our community doesn't follow us on social channels - to be expected.

Manly Tourist Board had shared a post but it's just hard with social media as there is SO much content on these channels that they quickly get lost.

What would be useful is to advertise the next open day in local magazines such as the Tawny Frogmouth or Manly Observer - have posters at the tourist office at the ferry wharf - but obviously depends on the cost as it might not be worth it to have \$500 or more for printing and advertising. Some visitors reported seeing the event advertised in Candy Bingham's newsletter

Attendance

Weather was dry but cold and windy. Coincided with World Environment Day and a volunteer activity at Fairfax Lookout. Friends of Cabbage Tree Bay also held their event with free kids' activities at Shelly beach.

Hotel occupancy was Saturday 75% Sunday 54%. Special accommodation offer did not bring any new bookings.

Definitely need to advertise more widely IF we want to encourage more visitors. Eg Manly Observer, tourist centres? Local newsletters etc

Visitors arriving between 9.30am-12.30pm were counted by a staff member doing a "meet and greet"

time	Knew about Open Day	Didn't know about Open Day	total
9.30-10am	20	2	22
10-10.30am	21	0	21
10.30-11am	37	0	37
11-11.30am	16	6	22
11.30am-12pm	12	13	25
12-12.30pm	7	2	9
total	113	23	136

Visitor Engagement

Location events seemed to work well eg Jo in S5 and P14 and broke the walk up for more reluctant walkers.

Participating Stalls

Feedback was that it was better doing the activities by the boiler house. More protected and frees the wharf up for transport and tours.

Australian Wildlife Displays- costly at \$1550 but a good drawcard for families; presenter was entertaining with a good range of animals. Was quiet until 10.45am then came in waves of visitors.

North Head Sanctuary

Happy with stall, the only problem was that people could not find them easily as they were behind the seating for the Boiler house and some people did not go past this area. One way to fix this problem is better signage, instructing visitors to go past the boiler house. There could also be a sign at the wharf telling people to go behind the fence at the beach to get to them. North Head Sanctuary would be happy to come back again. Maybe next time, the stalls could be on a map for the day.

Australian Wildlife Conservancy Kids activities were the most popular. It was a lovely day but they are not sure they had enough engagement to make it worthwhile for them to be there. The event needs to be more widely promoted with further opportunity to engage before, during and after for them to consider attending again. More promotion of the event beforehand and more time to prepare. They would suggest placing the wildlife encounters at a different spot as it removed interest in their stall. While it was lovely for people to see live animals lots were not native to the headland, and it did distract from the conservation work being done at QS and the rest of North Head.

Kids activities with Hannah

Kids that were most engaged were aged 3-7. This stall included the following activities in order of popularity:

1. DIY Clay sand brick homes for solitary pollinators
2. DIY bush sculpture art
3. Biodiversity Count

Hannah would like to attend next time with the following suggestions; Hand out biodiversity tally sheets (develop a simple folded two-page biodiversity hunt booklet) to children at the top entrance with pencil, to eventually drop in at the end stall down the bottom (incentivised with a surprise gift magnet or badge/sticker, for example 'I am a Biodiversity Hunter, 'I love Biodiversity @QStation' Stall could be halfway between reception and boiler house, near the G and T House or a bit further down, near the nature filled part of Q Station, have more materials to make the bush sculptures easier to make, Hand out gloves, More signage

Face painting- staff member was unable to attend at last minute.

Jo Neville, paper Couture Workshop in S5

There would have been about 50 people through on Sunday. Lots of kids with their parents who sat to paint some rare blooms. Some groups stayed longer and painted lots some were quite happy to take a pack home to do. Older couples were quite happy to wander through the cottage, admire the decor, and ask questions about the cottage and what it would have been - Jo was quite happy to tell them! Jo would be happy to do open day or similar again. She felt it was good having the boys with

beverages, cupcakes etc - most people who came past wanted real barista style coffee (not the urn style!) they would have been happy to sit on the balcony and the grass area on picnic rugs - the wind, however, was awful!!!

Tours

Self Guided tour- 150 booklet copies printed in house and 150 maps with program on the back. About 30 booklets left at the tours desk. A great activity with no staffing cost on the day.

The following guided tours were run on the day

tour	time	Attendance
Quarantine Wander	11am public	17 pax
	11.30am private	12pax
	12.30pm public	7pax
	4.30pm pvt	17pax
MH store visit	10am	0pax
	10.30am	7pax
	11am	3pax
	11.30am	7pax
	12pm	10pax
GT pvt	6pm	16pax
GE	8pm	18pax

Moveable Heritage Store

Having tours in P14 and the wharf was brilliant, but some of the visitors got lost or had been misdirected to the wharf as they didn't say which tour they were on and it was assumed it was the wharf. One lovely family knew it was P14 and followed the map to number 14 on the map they were given, which was the wrong location. They were all initially upset until they realised that they could still do their tour despite missing their time slot. With the numbers we had coming through we did not really particularly need time slots however given larger numbers it probably is a good idea. Or at least a time limit due to the lack of space. Without exception everyone who visited was fascinated by the collection. 11.30-12.30 attendance was **sporadic** even though there were bookings. Managed to greet and talk to guests as they arrived for informal chat.

Food & Beverage Feedback

BBQ and Beer tent was organised on terrace from from 11am Lot of great feedback on the Smoky burger. BH also took advantage of it with few walk-ins for lunch. Live music very well received with family dancing etc ... Stalls and activities on Terrace worked well. Lot of positive feedback with people really enjoying the event , food offering and location. Many people weren't aware of what was happening; we could have improved our marketing campaign .

Revenue:

\$1330 for BBQ and Drinks engine room

\$1100 for the VC café

No Sales at G&T marquee

We should have kept the BBQ and beers closer to the café , I believe we would have had more sales to the tours people as few of them did not come to BH Terrace .

We could have had Engine room ready early during the week , rather than doing it on the morning.

In House guests attendance and communication

In house guests were advised of the event when they were checking in and given a leaflet but check in is after 2pm so by the time the Open Day was drawing to a close. We did also advise day guests walking onto the property who were not already aware.

Would like to see more active advertising in the local community Not sure how else we can do this but many people we spoke to did not know about it. No transport issues on the day.

Amazing feedback for the Smoked beef and everyone loved the animals

Having a flyer available for check-ins on the Friday and Saturday would definitely have been helpful to hand out more information to plan their weekend. Maybe also have flyers at the Tourist information Centre at Manly Wharf

The information about the event was not included in the reconfirmation email. We could definitely do this next time.

Summary and future recommendations.

Set up -Preorganised stalls from the event the day before were brilliant. Suggest having set up again for next open day.

Activities- The following activities & stall holders were successful with positive feedback received and should be part of next the open day; kids activity stall, wildlife stall, North Head Sanctuary, BBQ, Moveable Heritage Store access, art workshop, self guided tour. AWC may attend with some considerations.

Positioning- The positioning of Art workshop in S5 captured many visitors, the positioning of the stalls on the Terrace created a good atmosphere but there were issues with visibility. Heritage Store difficult to find. Meet and Greet guide at reception strongly recommended

Timing- need to consider time it took to walk to wharf area doing self guided tour, and stopping at S5. Guests in wharf prior to 10.30am were probably in house who didn't know about the event. Directions and signage improvements; a map of key activities to be available, A frame corflute signage for key activities (In the wharf area attaching signage with stakes/ cable ties does not work) Pre event marketing; (This assumes that we want to attract a bigger crowd- implications for the NPWS event application) in house flyer for check in guests and for Manly Visitor Centre, Manly Observer, Tawny Frogmouth advertising. Event information to go in guest reconfirmations.

Other suggestions

Ferry access

First class dining room – drinks/ talk- it's a another great halfway point through the site.

Other possible stall holders – Bush to Bowl, Manly Warringah Historical Society, Harbour Trust volunteers, QSCC

Q Station Open Day report

Sunday 25th September 2022 10am-2pm

Overview

The open day had a theme of Portraying Quarantine with the following visitor engagement activities: free tours, smoking ceremony, talks, student art exhibition, artists plein air, wharf and hospital heritage buildings open for inspection, stalls, kids activities, music and BBQ.

NPWS event application was submitted and approved for a group of up to 150pax to attend.

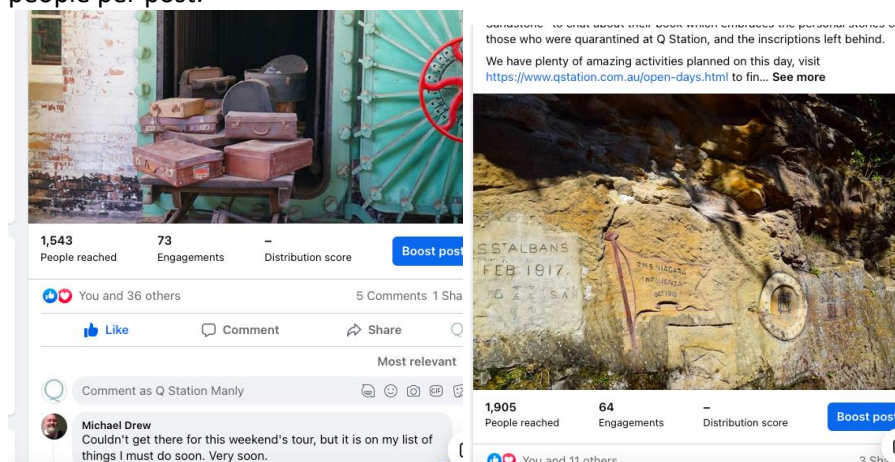

Communication and Marketing prior to event.

3 EDMs were sent out prior to the event; Food and Beverage, Leisure and hotel guests and Sunset sessions. Opening rates were lower than June 2022 open day which was 38%. The tours database was unfortunately missed which may have attributed to this lower figure.

database	sent	opened	Opening rate
Food and beverage	6062	1914	31.7
Sunset sessions	857	300	35.1
Hotel and leisure	15545	4548	29.7
Totals	22464	6762	30.1%

The engagement in the **Facebook** group event wasn't huge, with only 112 interested and 12 attending. There were comments asking about the next one though.

The Facebook posts about the event had an unusual high rate of interest though, as usually we reach around 500 people per post.

With **Instagram**, it's a bit hard to tell because we had the interim account posting about the event with only 300 followers. We only gained access to the hacked account with almost 7k followers at the end of the week prior. The Tawny Frogmouth was tagged in the Insta posts but sadly didn't share them as promised- maybe something to remind Liam of again next time as he has quite a far reach.

Attendance

It was a beautiful sunny day. Our open day event coincided with the Manly Jazz festival weekend. Visitors arriving between 9.45 and 12 were counted by a staff member doing a meet and greet. This presented some challenges as many people had arrived early to be there for their tour and I think were missed in the attendance counting.

Time	Tally
9.30-10	5 counted
10-10.30	29
10.30-11	40
11-11.30	25
11.30-12	25
	124

Visitor Engagement.

All of the free tours booked out within 24hours of EDMs were sent out. Managing occupancy of free tours remains a challenge. The talks in A9 were not very well attended, smoking ceremony provided a great focal point in the day and attracted a reasonable crowd. Some guests were sent to the wrong start location by reception staff.

tour	Booked	attended	% attending
10.00am Eco walks	20	13	65%
10.15am Michelle Montebello	32	19	60%
10.30am NPWS	20	12	60%
10.45am Bush Tucker(paid)	2	0 (cancelled)	
11am Quarantine wander(paid)	18	18	100%
11.30am Ecowalks	20	9	45%
12.30pm NPWS	20	Unknown	
12.30pm Felicity Pulman	21	12	57%
1pm Quarantine wander (paid)	4	4	100%

Participating Stalls

Australian Wildlife Displays
North Head Sanctuary Harbour Trust
Volunteers
NPWS
Bush to Bowl
Q Station stall & kids activities with Hannah, Peter Hobbins & Annie Clarke
Q Station bar and BBQ
Invited but did not attend; Surfers for Climate, Surfrider, Manly Warringah Historical Society, Australian Wildlife Conservancy

Contributors comments

Artists En plein Air

Tania McMurtry organised Artists En plein air with four artists taking part. Some artists arrived and went home because they couldn't get a carpark and they had their art materials to carry. There was also an annual en plain air event at Glebe Park which artists chose to go to and of course the Manly Jazz festival stole some artists too; a shame so many conflicting events. It was definitely busier after lunch. Approximately 35 people stopped for a decent chat, lots more walked on by. Everyone was interested in the upcoming sculpture show and took information away with them. Tania is possibly interested in participating at our next event.

Felicity Pulman

The tour was good and I hope participants enjoyed themselves and also found it of interest. Felicity got a clap but no real feedback other than some book sales.

Unfortunately the attendance at the talk was disappointing. I thought there could have been a lot more signage to the room, given that it was so out of the way of the 'main game' so's to speak, and the signage could have incorporated the name + time + topic, maybe even a different sign for each talk, writ large! Felicity felt that it was worthwhile being part of the day and is definitely interested in attending again.

Michelle Montebello

Overall, the tour went well and feedback from visitors was really positive. Next time it would be good to share my tour path with you, so that rooms can be unlocked and available, or we can be forewarned not to enter certain rooms (like the shower block: we came head-to-head with the historical tour and had to leave quickly). After the tour, most people drifted away to do other activities. There were only a few stragglers who came back for the talk. Maybe, to keep the momentum going, straight after the tour we could do a meet & greet and signing at a table (probably no need for a talk since I'm doing a lot of talking on the tour). That way we keep people engaged. It was a worthwhile event for me, I met lots of new readers and I saw my online sales for Q Station spike considerably afterwards- would love to come back if you'd have me.

Lee De Gail & Rose Porter NPWS

It was indeed a lovely day and a general good vibe. The critters are always a hit.

I would question the need for a NPWS stall as such as we really don't have anything to sell and we don't have any pamphlets or good quality National Park guides any more. Maybe a stall might be useful as a start / finish location for the discovery tours?

I think NPWS and the visitors get more out of the day with NPWS staff moving around and chatting to visitors about all sorts of wildlife things – especially penguins and engaging with the other stall keepers and yourselves.

The NPWS Discovery tours are a must do and I hope the attendees enjoyed the experience. If you think we need more of this then that can be arranged for next time.

Clarence Bruinsma, Bush to Bowl

All in all a nice day and good feel. People interested to learn about our products on the stall, however low sales. Without the smoking ceremony it would not have been profitable for us to attend. Would think about attending again but need to cover costs so would look to include a paid activity. Suggestions; a marketing strategy we could share for the event on our socials. Maybe some signage to show what is on from the other directions of Q station

Jenny Wilson, North Head Sanctuary

it was a perfect day on Sunday. Third Cemetery was the most popular aspect of our stall-it is always worthwhile talking to people about North Head. Excellent spot for the stalls, everyone could see us. Happy to do it again.

Collated Suggestions for next event

- smaller stall where the tours start and finish as well as down on the wharf. People would be more likely to buy one of the books after they have done a tour. I would also have more than the books so maybe some additional merchandise like the caps/hats etc so it is an overall Q Station stall, not just a book stall. Start and finish tours down at the Wharf, to give visitors a chance to explore the museum and maybe buy some lunch and sit on the beach. A few people had to get back up to Front Office to do a tour after being in the wharf area.
- More stalls- maybe food / wine, arts & craft & live music in the wharf area would bring a wider range of people that might not necessarily come to Q Station. The benefit of this is people are coming for something else but once they're on site, they discover a place that they may not have known anything about. From this, along with pre booked tours, maybe having some tours to 'jump on' running every 15 mins or so that they don't have to book around the wharf / hospital precincts. A couple of people commented that they didn't realise the Q Station was there (people that arrived by boat).
- Advertise tours at the stand
- Dress up and take a photo- historical costumes
- Community art project for everyone to join in on
- Kids games
- Free QW and QSS tours
- Activity to be in S5 rather than P5-
- All events prebookable online- tours to 35pax to allow for non attendance
- Improved strategies to ensure all staff working have correct information for guests
- It could be good to run a few art classes and let the art teacher charge a fee for them. With enough notice, there are local art groups around that could make it a part of their term activities. Perhaps some art classes for children
- Keep the animals!
- Food and wine theme for next event. ---suppliers to run the stalls- wine, beer, patisserie, sandwiches, Q Station to think about past historical food offered—includes bush tucker, wildlife- what eats what? & a food tour- from cooking on the beach to first class dining experience.

Promotional suggestions

- Sending a save the date to our EDM audience and putting a placeholder on the date on FB ahead of the release of event details. This will draw interest and means people can keep the day free in advance (whilst we are still working out the finer details)
- Once we have decided on the theme for the next open day I suggest we put together a series of blogs across various topics to do with the theme of the day. This will help generate website traffic and interest in attending.
- Suggest we try to maximise local advertising across Beaches publications and channels.
- Let guides know in advance- verbal promotion on tours
- Improve signage – bottom of H2 ramp, generally more signage
- more **advertising** on Social Media, etc, including in Manly/Northern Beaches related Facebook pages, Manly Daily online, Peninsular Living, Tawny frogmouth etc
- visitor sign up for EDM distribution
- advertising it a bit earlier online. Feedback received was that more notice would have been good, especially for interstate travellers who wanted to come.
- Dedicated photographer at event to share on social media
- Signage- invest in 6 sandwich frames (or corflute inserts for existing) - 2X reception- gate and bus area, 1 for S5/top of steps, 3 at wharf

6.4 Appendix D – North Head Sydney Pty Ltd Conservation Works Program Report

QUARANTINE STATION NORTH HEAD MANLY

2022 Annual Review of Conservation Works Program

By NORTH HEAD SYDNEY PTY LTD

for the period 1/1/2022 to 31/12/2022

EXECUTIVE SUMMARY

Condition 82 of the consolidated consent for the Quarantine Station North Head (MP08_0041) [as modified by MP08_0041-Mod-325/05/2018] provides that the co-proponents shall undertake a review of the CWP on an annual basis as part of the overall annual environmental report.

The review must be undertaken in consultation with the DEC and the Heritage Council, and include:

- (a) a list of conservation works implemented;
- (b) the identification of any additional conservation works required to be undertaken. This must include specific consideration of the condition of all asbestos items and actions required to ensure that public health and safety standards are met; and
- (c) information on the amount spent on conservation works (including maintenance works) within the site annually, together with independent verification of expenditures provided by a quantity surveyor. The information should include a breakdown on costs and works undertaken.

Advice must be sought from the relevant Aboriginal community group/s, an appropriately qualified and experienced conservation practitioner and other specialists as required in the review process.

Conservation is defined in the conditions of approval as:

all the processes of looking after a place so as to retain its cultural significance. It includes maintenance and may according to circumstance include preservation, restoration, reconstruction and adaptation and may commonly be a combination of more than one of these.

Conservation works [including maintenance work] implemented during 2022 [with consent of Heritage Council and NPWS] was:

removal of debris from the stormwater system
replacement of sewerage pump
removal of the fallen tree in the Little Penguin protected area
removal of the brush turkey mound in the Little Penguin protected area
fixing aluminium stair nosing to each step in the funicular stair way
minor repair and maintenance of the stairs, balustrades and verandah
interior painting of P27 building
floor sanding in P27 building
coating of the floor in P27 with a clear poly/ oil finish
make good damage to site resulting from damage caused by rainstorms in March 2022
replacement of asphalt on Cottage Road

Nosing fixed to funicular stairs

Penguin area after removal of Brush Turkey Nest and fallen tree

Repairs to balustrades

Asphalting Cottage Road

P27 floor before sanding

A20 stair replacement

P27 after conservation work

Attached is exemption notification form lodged with the Heritage Council for the internal conservation work to P27.

Expenditure on all conservation works since the transfer of the lease of the site to North Head Sydney Pty Ltd on 11th May 2022 was \$269,947.00 including GST

NHS engaged with the indigenous stakeholders [including a Dennis Foley who has knowledge of the site] to locate the natural spring within the site and to learn how to best respect the indigenous heritage of the site moving forward with NHS's vision.

NHS has contracted with Dr. Ashlea Zivanovic of Garigal Nursery to contract grow 1000 native wildflower tube stock for planting out into the existing gardens beds around the Q Station accommodation and reception buildings. Formal proposal from Dr. Zivanovic is attached to this monitoring report.

NHS has engaged <http://www.ambs.com.au/index.html> for its consultancy service to provide a report on indigenous values for attachment with any application to Heritage Council.

Conservation works planned for 2023, subject to approval by Heritage Council and NPWS, include:

- restoration of and improvements to buildings A2, A24, H1 and H2
- restoration of and improvements to accommodation rooms
- upgrade and improvements to the native landscape of the site
- expansion of the museum
- replacement of 5 heritage power poles which are in danger of falling
- removal of a large tree in front of Asiatic Rooms

Regular maintenance of the site and the buildings will continue through out 2023.

HERITAGE COUNCIL OF NEW SOUTH WALES

EXEMPTION NOTIFICATION FORM – S.57(2) NSW Heritage Act

THERE IS NO FEE PAYABLE FOR AN EXEMPTION

<ul style="list-style-type: none"> • This form should be completed and submitted to the Director, Heritage Branch to notify the Heritage Council of a proposed development that may be exempt under section 57(2) of the Heritage Act. • An application is required under section 60 of the Heritage Act if the proposed development is not covered by the Standard Exemptions Type listed on page 2. • More information is available in the publication "Standard Exemptions for Works Requiring Heritage Council Approval" on the Heritage Branch website at http://www.heritage.nsw.gov.au • The Submission Requirements depend on the Standard Exemption Type (also refer to page 2, over). • Two copies of the submission are required. • Drawings (A4 or A3) and photographs may be needed in order to explain the proposal and if so, should be attached. 	<ul style="list-style-type: none"> • A brief statement of heritage significance of the affected item is required to accompany this form. • This form must be signed by the applicant and land owner. • If the Director of the Heritage Branch is satisfied with the proposed development and accompanying submission, a copy of this form will be endorsed by the Heritage Branch and returned to the Applicant identified below. • If the Director of the Heritage Branch is not satisfied with the proposal and accompanying submission, more information will be requested which may delay endorsement. • This form and attachments should be sent by mail, or delivered in person to: <i>Heritage Division, Office of Environment and Heritage Locked Bag 5020, PARRAMATTA NSW 2124 Fax: 98738599 Phone: 98738500 email: heritage@heritage.nsw.gov.au</i>

ENDORSEMENT BY HERITAGE BRANCH (Office Use Only)

The proposed development described on this form has been assessed by the Heritage Branch. The proposed development does not require approval under section 57(1) of the Heritage Act as it is exempt under *Standard Exemption No.* granted under section 57(2) of the Heritage Act by the Minister for Planning by Order published in the Government Gazette on 5 September 2008, and the relevant criteria have been satisfied. See reverse side for general conditions. An endorsed copy of the information lodged with this form is attached.

DIRECTOR / MANAGER, Heritage Branch Department of Planning (as delegate of NSW Heritage Council)

STANDARD EXEMPTION TYPE	SUBMISSION REQUIREMENTS
1. Maintenance and Cleaning	No notice to Heritage Branch required
2. Repairs	No notice to Heritage Branch required
3. Painting	Details of proposed colour scheme, paint type, surface preparation and paint removal and a statement demonstrating no adverse impact on the heritage significance of the item
4. Excavation	Archaeological assessment or statement demonstrating minor impact or nature of fill (refer to standard exemption for more explanation)
5. Restoration	Statement demonstrating the need for and the material and method of restoration and no adverse impact on heritage significance of the item
6. Development endorsed by Heritage Council or Director-General	No notice to Heritage Branch required
7. Minor activities with little or no adverse impact on heritage significance	Statement demonstrating the activity is of a minor nature and will not adversely affect the heritage significance of the item
8. Non-significant fabric	Statement demonstrating no adverse impact on the heritage significance of the item
9. Change of use	Statement demonstrating the change of use does not involve alteration of fabric or cessation of the primary use or loss of significant associations (refer to standard exemption for more explanation)
10. New buildings	No notice to Heritage Branch required
11. Temporary structures	Statement demonstrating no adverse impact on significant fabric (refer to standard exemption for more explanation)
12. Landscape maintenance	No notice to Heritage Branch required
13. Signage	Statement demonstrating no adverse impact on significant fabric (refer to standard exemption for more explanation)
14. Burial sites and cemeteries	Statement demonstrating that monuments and gravemarkers will not be in conflict with the character of the place
15. Compliance with minimum standards and orders	No notice to Heritage Branch required
16. Safety and security	Structural Engineer's certificate if damaged item poses a safety risk (refer to standard exemption for more explanation)
17. Movable heritage items	Statement describing the proposed location and the reasons for its relocation.

GENERAL CONDITIONS

1. Anything done pursuant to the Standard Exemptions must be carried out in accordance with any relevant development consent or approval under section 63 of the Heritage Act, Guidelines issued by the Heritage Office including *"The Maintenance of Heritage Assets: A Practical Guide"* 1998, *"Movable Heritage Principles"* 2000 and *"The Heritage Council Policy on Managing Change to Heritage Items"*.
2. The Standard Exemptions do not apply to anything affecting objects, places, items or sites of heritage significance to Aboriginal people or which affect traditional access by Aboriginal people.
3. Anything done pursuant to the Standard Exemptions must be specified, supervised and carried out by people with knowledge, skills and experience appropriate to the work.

NOTE: Refer to the Standard Exemptions granted under section 57(2) of the Heritage Act by the Minister for Planning published in the Government Gazette on 5 September 2008, for more details.

To Whom It May Concern

2006 - NORTH HEAD QUARANTINE & RESERVE (SHR: 01003) - S.57(2) EXEMPTION APPLICATION

Please find enclosed our application under section 57(2) of the NSW Heritage Act for internal painting works to the former dining/kitchen (building P27) within the 3rd Class/Asiatic Precinct of the Quarantine Station.

While there are extensive colour schemes for the exterior prepared by Paul Davies, there are no colour schemes for the interior. The interior colours have been specified to match existing, including the following:

- Beams including steel fixings - Falkland to match existing
- Walls - Falkland to match existing
- Window, door and wall surrounds/skirting - Timeless Grey to match existing
- Ceiling/window frames/door panels - Vintage Linen to match existing

The proposed internal painting works will have no adverse impact on the heritage significance of the former Quarantine Station for the following reasons:

Generally, they match the existing colour and therefore use a colour sympathetic to the item.

As the colour is typical of colours used on buildings of this period and type, it does not detract from the item.

As the colour scheme remains essentially the same, it does not reduce the ability to appreciate the item.

Yours faithfully

Jennifer Hill

Aboriginal heritage	1
Flora and fauna	5
Soil and erosion	12

List of tables

Table 1	Features NPWS are responsible for monitoring	2
Table 2	2022 Monitoring Report	3

Overview

This report has been prepared by National Parks and Wildlife Services (NPWS) as required by Conditions of Planning Approval (CoPA) 229 for the consolidated consent [MP08_0041] as modified by [MP_0041-Mod-3 – 25/05/2018].

Lessee and operator of Q Station, North Head Sydney Pty Ltd, have prepared a separate report to meet this condition.

CoPA 229 states:

As part of the annual environmental report (condition 221) and comprehensive audit (condition 226), the co-proponents shall produce a monitoring report outlining results from the integrated monitoring program. The report shall:

- (a) include an analysis of monitoring results and trends collected over time; and
- (b) identify measures taken or proposed to be undertaken to respond to any adverse or unexpected impacts identified.

Table 1 lists the subgroup of features NPWS are responsible for monitoring as per CoPA 217 and the Integrated Monitoring and Adaptive Management System (IMAMS) (CoPA 216).

Table 1 Features NPWS are responsible for monitoring

Features to be monitored (CoPA 217)	IMAMS headline indicators (CoPA 216)
Aboriginal Heritage	Aboriginal heritage Aboriginals Sites
Flora and fauna including threatened species monitoring	Long-nosed Bandicoot population Little Penguin population health Predator and Pests Native vegetation health
Soil and erosion	Erosion of soil

IMAMS review

On 12 December 2022 DPE Planning issued an official Direction to review and develop a new Integrated Monitoring Program by 28 February 2023. North Head Sydney submitted an IMAMS proposal to DPE Planning via Major Project Portal on 19 December 2022. NPWS are engaging consultants to review the program in early 2023.

The 2022 monitoring report is based on the IMAMs 2006 and IMAMs 2022 program and covers additional analysis regarding monitoring results and trends collected over time.

fox incursion in 2015 pre-breeding season.

The now low level of the population means there is little buffer against other impacts such as changes in oceanic conditions, which could impact individual breeding seasons or the long-term population.

The 2021/2022 monitoring program was impacted by covid pandemic restrictions resulting in a reduction in site surveys.

Subject: RE: HPE CM: Invitation to comment on North Head Quarantine Station 2022 Annual Report - TfNSW

Dear Rose

Thank you for the reminder.

My only comment on the draft 2022 Annual Environment Report for Q-Station is in relation to the Compliance requirement regarding the **Wharf** under item 42 (page 50-51), where references are made to the “Waterways Authority” but should now be “Transport for NSW”.

Best regards

Meredith

Dear Ms Porter

COMPLIANCE WITH CONDITIONS OF CONSENT
Conservation and adaptive re-use of the North Head Quarantine Station (MP08_0041)
Condition 221 (Annual Environmental Report)

Thank you for the submission of the draft *2022 Annual Environmental Report, Quarantine Station North Head – MP 08-0041*, prepared by National Parks and Wildlife Service in partnership with Q Station, to satisfy Condition 221 of Major Project approval MP08_0041.

Condition 221

An annual environmental report for the activity shall be prepared by the co-proponents and submitted to the DEC, DIPNR, NSW Heritage Council, Waterways Authority, NSW Fisheries and the Quarantine Station Community Committee for comment. In reviewing the annual environmental report these organisations are to specifically consider issues associated with visitor impacts arising from the activity.

Heritage NSW have reviewed the draft 2022 Annual Environmental Report (Report) in conjunction with condition 221 (CoA no. 221) specifically issues which relate to visitor impacts arising from the activity and provide the following comments:

- Table 1 details comments received that deal with any visitor impact arising from the activities on site. This table is empty.

Thank you for providing the report to the Heritage Division and we have no further comment at this time.

If you have any questions regarding the above advice, please contact James Quoye, Senior Assessments Officer at Heritage NSW on 9873 8612 or james.quoye@environment.nsw.gov.au.

Yours sincerely

Michael Ellis
